**GENERAL:** COMP-AIDE is a concentrated combination of a compatibility agent and a non-ionic surfactant. COMP-AIDE is designed to improve mixing and compatibility of spray tank mixtures of pesticides and/or fertilizer solutions and act as a spreader for use with pesticides.

**DIRECTIONS:** For most situations add COMP-AIDE to spray tank or aircraft pre-mix tank prior to the addition of any pesticides. Although best when added to spray tank first, COMP-AIDE may also be used as a corrective treatment to tanks in which the pesticide and/or fertilizer mixtures which demonstrate incompatibility.

Add COMP-AIDE to the spray at the rate of 0.5 pints to 3 pints per 100 gallons of spray solution. 1 to 2 pints is the recommended use for most fluid nitrogen and fluid mixed fertilizer solutions. Agitate mixture while adding pesticides and agitate several minutes before application and during application.

### STORAGE AND DISPOSAL

**STORAGE:** Store away from incompatible materials. Store in cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container. Product thickens in cold temperatures. Freezing will not harm product effectiveness. Warm product before use.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container in accordance with local/national regulations. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities.

**For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.**
