GENERAL INFORMATION

CROSSHAIR® is specially formulated for use with most fungicides, herbicides and insecticides that are labeled for use in agriculture, forestry, golf course, industrial, non-crop, roadside, turf, and ornamentals. CROSSHAIR is a deposition and drift management agent that reduces the number of spray droplet fines < 105 microns and increases the VMD (Volume Median Diameter) of the spray droplets. CROSSHAIR generates a more uniform droplet size spectrum which results in enhanced deposition and coverage of the spray on the targeted surface.

NOTE: CROSSHAIR does not replace the need for additional adjuvants/surfactants in the spray tank.

DIRECTIONS FOR USE

Use 4 fluid ounces of CROSSHAIR per acre.

CROSSHAIR must be added to the spray tank last.

When water conditioning products are used, always add the water conditioning product as the first product in the spray mixture.

Add any additional adjuvants to the spray tank before CROSSHAIR.

Proper nozzle selection and operation (pressure and spray angle) combined with good operator evaluation and decision making on wind direction, temperature inversions, application speed and susceptible crops in the area combined with CROSSHAIR are necessary for maximum drift reduction potential.

For Aquatic Use: CROSSHAIR can be used with labeled aquatic products. Do not exceed 1 quart of CROSSHAIR per surface acre of water.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly sealed. Store in closed storage area.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations.

Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law.

Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations.

Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate.

Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures

approved by state and local authorities. Recycling cleaned containers is the best option of

container disposal. The ACRC (Agricultural Container Recycling Council) operates a national

recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at

www.acrecycle.org.
