

# Cue™ liquid

## Plant signal compound for

# soybean

**PROD. # 9040-742**

### Application Rate

Apply 0.368 fl oz per cwt of soybean seed.

### Directions for use

For application by seed company only.

### If applied alone

Cue may be diluted with water at the time of application to achieve coverage of all seed. If diluting with water, first add the water to the tank, turn on the tank agitation system and then slowly add Cue to the tank. Provide good tank agitation during use.

### If applied in a mixture with seed treatments

To apply in a mixture with chemical seed treatment, prepare chemical seed treatment first and if necessary, mix water with the seed treatment and agitate.

Second, with the agitation system engaged, slowly add the correct amount of Cue to the tank containing the chemical seed treatment. Maintain agitation throughout use. Always read and follow the instructions on the seed treatment label.

**Net contents:** 4.6 gal (588.8 fl oz)

**Net weight:** 38.6 lb (17.5 kg)

**Gross weight:** 41.5 lb (18.8 kg)

**Treats:** 3,200 units (160,000 lb)  
of soybean seed

### Labeling of treated seeds

Seed commercially treated with Cue must be labeled in accordance with all applicable state and federal requirements. All bags containing treated seed must be labeled or tagged as follows:

- This seed has been treated with Cue at the rates recommended by the manufacturer
- Do not use for food, feed, or oil purposes
- Store away from feeds and other foodstuffs

### Applicators and other handlers

Wear protective clothing such as gloves and lab coat to prevent skin contact. Use safety goggles and/or a full face shield where splashing is possible.

### Limited warranty

The seller warrants that this product contains a minimum number of isoflavonoid plant signal compounds as specified on this label. The seller makes no other warranty expressed or implied as to product viability or performance since storage, use, and growing conditions are beyond the seller's control. Seller's guarantee is limited to the terms set out on the label and subject thereto. Buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
