Derived from Dipotassium Phosphate.

Also Contains Non Plant Food Ingredients: 2.5%

Organic acids derived from Leonardite

Wt. per gal: 11.49 lb @ 68°F 1.37 Kg per Ltr. @ 20°C

GENERAL INFORMATION

DKP PUSH is a nutritional spray which is intended to be used as a supplemental fertilizer treatment to a regular fertility program. DKP PUSH is derived from Dipotassium Phosphate combined with Humic acid for aiding in continued phosphate and potassium availability for your crop.

COMPATIBILITY

DKP PUSH is compatible with most fertilizer and pesticide programs. However if you are applying to a new applications mixture, a simple jar test should be conducted to test for compatibility. Mixing with certain other compounds could result in an incompatible mix.

Information regarding contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

KEEP OUT OF REACH OF CHILDREN

WARNING

WARNING Causes eye and skin irritations. When mixing or applying agricultural sprays, always wear spray goggles and impervious gloves plus protective clothing as recommended on pesticide labels.

FIRST AID If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least 15 minutes, occasionally lifting the upper and lower lids. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical attention.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Follow proper procedures for the disposal of spray solutions. Rinse and dispose of empty containers according to approved local practices.

CONDITIONS OF SALE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Weather, crop conditions, timing and methods of applications, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given
