

SPECIMEN

DELETE-IT™ SPRAY SYSTEM CLEANER

INGREDIENT STATEMENT

Proprietary blend of alkalinity builders, emulsifiers, surfactants, and formulation aids.....100%
All ingredients are exempt from the requirement of a tolerance under 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
DANGER**

MAY BE CORROSIVE TO METALS. HARMFUL IF SWALLOWED. CAUSES SEVERE SKIN BURNS AND EYE DAMAGE. CAUSES SERIOUS EYE DAMAGE.

PRECAUTIONARY STATEMENTS

Do not breathe fumes / mist / vapor / spray. Wash hands, forearms and face thoroughly after handling. Do not eat, drink or smoke when using this product. Keep only in original container. Absorb spillage to prevent material damage. For specific treatment see supplemental First Aid instruction on this label.

PERSONAL PROTECTIVE EQUIPMENT

Wear protective, chemical-resistant gloves / protective clothing / splash-proof, chemically safe eye protection / face protection. Wash contaminated clothing before reuse.

FIRST AID:

If medical advice is needed, have product container or label at hand.
IF SWALLOWED: Call a poison center / doctor if you feel unwell.
Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (OR HAIR): Take off immediately all contaminated clothing.
Rinse skin with water / shower.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do.
Continue rinsing. Immediately call a poison center / doctor.

ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning of equipment or disposal of wash water.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
Storage: Store locked up. Store in a corrosion resistant container with a resistant inner liner.
Disposal: See back panel for instructions.

STORAGE AND DISPOSAL (Continued)

Disposal: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents / container in accordance with local / regional / national regulations. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

GENERAL INFORMATION

DELETE-IT™ is a powerful spray system cleaner that exceeds the capabilities of ordinary tank cleaners. DELETE-IT™ emulsifies oily residues in sprayer lines and hoses while elevating rinsate pH to degrade vulnerable crop protection products. DELETE-IT™ ensures more thorough clean-outs and reduced risk of cross contamination when used in conjunction with proper sprayer cleaning technique. Rinsate solutions containing DELETE-IT™ may be disposed of on growing crops.

Read label before use.

DIRECTIONS FOR USE

After cleaning procedures have been completed, fill tank with clean water and conduct a rinsate test on the water in the tank. Rinsate tests can be done through laboratory analysis or bioassay. For bioassay testing, apply rinsate to sensitive vegetation and observe treated plant for at least 48 hours. If damage occurs, repeat cleaning process and testing procedures. If no damage is observed, dispose of rinsate in an appropriate manner and resume spraying operations. FOR USE IN CLEANING SPRAY EQUIPMENT USED TO APPLY PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND, ORNAMENTAL, RIGHTS-OF-WAY, TURF, AND OTHER APPROPRIATE USES.

DOSAGE

Use 2 quarts per 100 gallons of clean water.

MIXING

In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Clean all tanks on a state-approved loading pad so rinsate can be collected and mixed into spray solution or into a dedicated rinsate tank. In-field clean-out, go to step 3.
2. Drain the spray tank as completely as possible. Loosen any visible deposits.
3. Conduct a pre-rinse by charging system with 100–200 gallons of clean water. Recirculate for 10 minutes and spray half of the rinsate through the nozzles.

4. Remove end-caps on boom sections and spray remaining 50–100 gallons through the booms.
5. Remove nozzles, screens and strainers and thoroughly clean separately in a bucket, using DELETE-IT™ as the cleaning agent. Allow to soak while completing the cleaning process.
6. Charge the system again with 100–200 gallons of clean water and the appropriate rate of DELETE-IT™. Ensure agitation and carefully clean the interior of the tank using a 360° rotation nozzle or pressure sprayer. Recirculate for 15 minutes and spray half of the rinsate through the nozzle bodies and the other half through the spray boom sections until tank is empty.
7. Drain lines and pump. Dispose of rinsate according to product label and local, state and federal regulations.
8. Rinse nozzles, screens, strainers, and end-caps with clean water and reinstall.
9. Flush the system by adding 50–100 gallons of clean water to the tank. Recirculate through entire system. Flush solution through the boom, hoses and nozzles until tank is empty.
10. Drain the tank, lines and pump completely. Remove excess rinsate with a pump or dedicated wet / dry vacuum.
11. REPEAT STEPS 6, 9, AND 10 IF NECESSARY.

DISCLAIMER OF WARRANTIES

J.R. Simplot Company warrants that the composition of this product conforms to the description and is reasonably fit for the purpose as stated on the label only when used in accordance with label directions under normal conditions of use. This warranty is expressly in lieu of all other warranties and representations expressed, implied, or statutory, including warranties of merchantability and fitness for a particular use. Timing, rate and method of application, weather and crop conditions, and mixtures not specifically recommended on this label or an accompanying written recommendation, are beyond the control of the seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees that, in the event of damages resulting from, but not limited to, weather or soil conditions, presence of other materials, or failure to follow label directions, responsibility will be assumed by the buyer or user; and to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
