

RESTRICTED USE PESTICIDE

DUE TO EYE AND SKIN CORROSIVITY HAZARD

For retail sale to and use only by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicators Certification.

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WYOMING

EPA REG. NO. 5481-479

EPA SLN NO. WY-040001

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

ALFALFA (Seed Only)

Lygus

Apply 1 to 1½ pints per acre at 7-day intervals. Apply in 10 to 20 gallons per acre if sprayed by ground or in 3 to 5 gallons per acre if sprayed by air.

Use of this product according to this labeling is deemed a non-food use and as such is not to be used on fields producing alfalfa for livestock feed. DO NOT feed or graze alfalfa treated with DIBROM. DO NOT cut treated alfalfa for hay or forage, nor use harvested seed for sprouting. No portion of the treated field, including seed, seed screenings, hay, forage or stubble may be used for human or animal feed.

Bee Exposure

DO NOT expose bees to direct DIBROM application. DIBROM may be toxic to bees up to 12 hours after treatment. To minimize bee hazard during bloom, applications should be made at night before 11 PM. DO NOT apply if weather conditions favor dew formation the night of application.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This label must be in the possession of the user at time of pesticide application.

This label expires and shall not be distributed or used in accordance with this SLN registration after October 14, 2024.
