This product contains 4 pounds of active ingredient per gallon.

KEEP OUT OF REACH OF CHILDREN**DANGER / PELIGRO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

ENVIRONMENTAL HAZARDS

Follow all applicable directions, restrictions, and precautions in the "ENVIRONMENTAL HAZARDS" section of the label affixed to the main container of Captan 4L (EPA Reg. No. 19713-644).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This SLN label and the label affixed to the main container of Captan 4L must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on this SLN label and the label affixed to the main container of Captan 4L.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

USE INSTRUCTIONS.

The Restricted Entry Interval (REI) for use on Easter lily bulbs under this SLN is 48 hours. Refer to the label affixed to the main container of Captan 4L for additional Worker Protection Standard requirements.

To aid in the control of root rot in Easter Lily bulbs, mix 1 gallon of this product with enough water to make a 100-gallon dip solution.

Soak bulbs in the dip solution for a minimum of 15 minutes before planting.

Captan 4L is not a stand-alone product for control of the entire complex of rot organisms. Use Captan 4L in combination with other fungicides registered for use on Easter Lily bulbs. For additional information on products that may be tank mixed with Captan 4L, contact Oregon State University Extension or the Easter Lily Research Foundation

Apply the remaining post-application mixture or "left-over" solution in-furrow over the bulbs or over the top of the planting beds. Regardless of application method, do not exceed the rate of 100 gallons of solution per acre or the maximum application rate per acre of any other product in the tank mix.

The Federal Seed Act requires that bags containing bulbs treated with this product shall be labeled with the following information: "These bulbs have been treated with captan. Do not use for food, feed or oil purposes."
