CONTROL-A™

Class A Fire Control Foam Concentrate

(0.1% TO 1.0% PROPORTIONING)

CONTROL-A MEETS OR EXCEEDS NFPA 298 STANDARDS

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye irritation.
Causes skin irritation.
Harmful if swallowed.

See **FIRST AID** and **Additional Precautionary Statements Below**

Read Entire Label Before Using This Product

SHAKE WELL BEFORE USE

(Recirculate Contents Before Use)

Net Content: 2.5 Gals. (9.46 L)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING: Causes eye and skin irritation. Harmful if swallowed or if in contact with skin. Do not get on skin, in eyes or on clothing. Do not eat, drink or smoke when using this product. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Take off contaminated clothing and wash before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Wear eye protection, face protection, protective gloves and protective clothing.

FIRST AID

IF IN EYES:

- Rinse cautiously with water for 15 to 20 minutes.
- Remove contact lenses, if present and easy to do so. Continue rinsing.
- If eye irritation persists, get medical attention.

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- If skin irritation occurs, get medical advice.

IF SWALLOWED:

- Call a poison control center or doctor if you feel unwell.
- Rinse mouth.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call CHEMTREC at 1-800-424-9300 for emergency.

USE INFORMATION

CONTROL-A is a fire control concentrate. It is carefully formulated for use on all Class A fires including wood, paper, plastics, textiles, rubber and coal. Diluted to use concentrations with water, this product is not toxic to fish or wildlife, nor does it affect the growth of plants. It is biodegradable in soil and sewage treatment facilities. This product is non-corrosive and is compatible with plastic, rubber, aluminum, brass and steel.

This product significantly reduces water consumption and control time on Class A fires. When applied as a protective barrier, it will provide added protection to uninvolved structures and minimize fire and water damage.

This product reduces flow resistance in pumps, hoses and nozzles, thus, improving stream distance and lessening pump wear. This product acts by improving the penetration and spreading of water, thus, providing a cooler environment and reducing exposure to toxic fumes for firefighters. It mixes easily in booster pump tank or tanker shuttle or it can be metered into the flow stream easily with an eductor.

DIRECTIONS FOR USE

CONTROL-A fire control liquid is a synthetic based concentrate for use by dilution with fresh or sea water in fire fighting foam-generating equipment. For ground fire fighting using typical Class A fire fighting nozzles, mix 0.3 parts CONTROL-A to 99.7 parts water. When used for aerial application with fixed wing aircraft or helicopters, mix 0.6 part concentrate to 99.4 parts water. For other Class A fire applications, a proportioning rate of 0.1% to 1.0% should be used depending upon type of fuel and foam generating equipment. CONTROL-A may also be diluted at the rate of 2.5 gallons to 500 gallons fresh water for ready-to-use storage as a pre-mix solution.

NOTICE:

NOT INTENDED FOR USE ON WATER SOLUBLE FUELS.

Do not mix with other Class A foam agents.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PRODUCT STORAGE: Store in original container. Keep container tightly closed when not in use. Store at a minimum temperature of 5°F (-15°C) to a maximum temperature of 120°F (49°C). Storage of this product in temperatures outside the ranges set forth above may adversely affect the performance of the extinguishing agent.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY—CONDITIONS OF SALE

This product is believed to be a highly effective aid in suppression or reduction of the hazards of fire when used according to the directions for use. However, Drexel has no control over the customer's use of the product or the applications for which it is employed. Because of the many variables associated with fire, Drexel does not warrant that this product will suppress or extinguish every fire. DREXEL CHEMICAL COMPANY WARRANTS that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use as modified by the above. Drexel makes no other warranties, expressed or implied, including FITNESS or MERCHANTABILITY. In no case shall Drexel or the Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. The foregoing is a condition of sale by DREXEL CHEMICAL COMPANY and is accepted as such by the Buyer.
