**SECTION 2. HAZARDS IDENTIFICATION**

Not classified as a hazardous substance or mixture according to the Occupational Safety and Health Administration (OSHA) Hazard Communication Standard 2012.

**Other hazards**

No applicable data available.

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

SECTION 4. FIRST AID MEASURES

General advice: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies involving this product, call toll free 1-800-441-3637. See Label for Additional Precautions and Directions for Use.

Inhalation: No specific intervention is indicated as the compound is not likely to be hazardous. Consult a physician if necessary.

Skin contact: The material is not likely to be hazardous by skin contact, but cleaning the skin after use is advisable.

Eye contact: No specific intervention is indicated as the compound is not likely to be hazardous. Consult a physician if necessary.
Ingestion: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Do not give anything by mouth to an unconscious person.

Most important symptoms/effects, acute and delayed: No applicable data available.

Protection of first-aiders: No applicable data available.

Notes to physician: No applicable data available.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media: Water spray, Foam, Dry chemical, Carbon dioxide (CO2)

Unsuitable extinguishing media: No applicable data available.

Specific hazards: No applicable data available.

Special protective equipment for firefighters: In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

Further information: Evacuate personnel and keep upwind of fire. If area is heavily exposed to fire and if conditions permit, let fire burn itself out since water may increase the area contaminated. Cool containers/tanks with water spray. Runoff from fire control may be a pollution hazard. Do not allow run-off from fire fighting to enter drains or water courses.

SECTION 6. ACCIDENTAL RELEASE MEASURES

NOTE: Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean-up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.

Safeguards (Personnel): Evacuate personnel, thoroughly ventilate area, use self-contained breathing apparatus. Wear personal protective equipment.

Environmental precautions: Prevent material from entering sewers, waterways, or low areas.
Spill Cleanup: Shovel or sweep up. Dispose of in an approved container. Dike large spills using absorbent or impervious materials such as sand or clay. Ensure adequate decontamination of tools and equipment following cleanup.

Accidental Release Measures: Never return spills in original containers for re-use. Follow applicable Federal, State/Provincial and Local laws/regulations.

SECTION 7. HANDLING AND STORAGE

Handling (Personnel): Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove personal protective equipment immediately after handling this product. Remove clothing/PPE immediately if material gets inside. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Handling (Physical Aspects): No applicable data available.

Dust explosion class: No applicable data available.

Storage: Do not contaminate water, other pesticides, fertilizer, food or feed in storage. Store in original container. Store in a cool, dry place. Keep out of the reach of children.

Storage period: No applicable data available.

Storage temperature: No applicable data available.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls: When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS. IMPORTANT: When reduced PPE is worn because a closed system is being used, handlers must be provided all PPE specified for "Applicators and Other Handlers" and have such PPE immediately available for use in an emergency, such as a spill or equipment breakdown.

Personal protective equipment
Skin and body protection: Mixers, loaders, applicators and other handlers must wear:
- Long sleeved shirt and long pants
- Chemical resistant gloves made of any waterproof material
Shoes plus socks
PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:
Coveralls
Chemical resistant gloves made of any waterproof material
Shoes plus socks

Protective measures : 
Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Exposure Guidelines
Exposure Limit Values

Chlorsulfuron
AEL * (DUPONT) 10 mg/m³ 8 & 12 hr. TWA Total dust.
AEL * (DUPONT) 5 mg/m³ 8 & 12 hr. TWA Respirable dust.

Metsulfuron methyl
AEL * (DUPONT) 10 mg/m³ 8 & 12 hr. TWA Total dust.

Modified Lingin Sulfonate Salt
No applicable data available.

Other Ingredients
No applicable data available.

*AEL is DuPont's Acceptable Exposure Limit. Where governmentally imposed occupational exposure limits which are lower than the AEL are in effect, such limits shall take precedence.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES
Appearance
Physical state : solid
Form: solid, granules
Color: blend of white and brown
Odor: none
Odor threshold: No applicable data available.

pH: 4.7 at 25 °C (77 °F)

Melting point/range: No applicable data available.
Boiling point/boiling range: No applicable data available.
Flash point: No applicable data available.
Evaporation rate: No applicable data available.
Flammability (solid, gas): No applicable data available.
Upper explosion limit: No applicable data available.
Lower explosion limit: No applicable data available.
Vapour Pressure: No applicable data available.
Vapour density: No applicable data available.
Specific gravity (Relative density): No applicable data available.
Water solubility: No applicable data available.
Solubility(ies): No applicable data available.
Partition coefficient: n-octanol/water: No applicable data available.
Auto-ignition temperature: No applicable data available.
Decomposition temperature: No applicable data available.
Viscosity, kinematic: No applicable data available.
Viscosity, dynamic: No applicable data available.
SECTION 10. STABILITY AND REACTIVITY

Reactivity: No applicable data available.
Chemical stability: Stable at normal temperatures and storage conditions.
Possibility of hazardous reactions: No applicable data available.
Conditions to avoid: No applicable data available.
Incompatible materials: None reasonably foreseeable.
Hazardous decomposition products: No applicable data available.

SECTION 11. TOXICOLOGICAL INFORMATION

DuPont™ Finesse® Cereal and Fallow Herbicide

Inhalation 4 h Acute toxicity estimate: > 5.3 mg/l, Rat
Dermal Acute toxicity estimate: > 5,000 mg/kg, Rabbit
Oral Acute toxicity estimate: 4,000 mg/kg, Rat
Skin irritation: No skin irritation, Rabbit
Minimal effects that do not meet the threshold for classification.
Eye irritation: No eye irritation, Rabbit
Sensitisation: Did not cause sensitisation on laboratory animals., Guinea pig
Did not cause sensitisation on laboratory animals., Mouse
Further information: Information given is based on data on the components and the toxicology of similar products.

Chlorsulfuron
Repeated dose toxicity: No toxicological effects warranting significant target organ toxicity classification were seen below the recommended guidance values for classification., The following effects occurred at levels of exposure that significantly exceed those expected under labeled usage conditions.
Inhalation
Carcinogenicity: The following effects occurred at levels of exposure that significantly exceed those expected under labeled usage conditions.
Target(s): Leydig cells
An equivocal increase in tumors was observed in one species, but not in another species.
Not classifiable as a human carcinogen.

Mutagenicity: Animal testing did not show any mutagenic effects.
Tests on bacterial or mammalian cell cultures did not show mutagenic effects.

Reproductive toxicity: No toxicity to reproduction

Teratogenicity: The following effects occurred at levels of exposure that significantly exceed those expected under labeled usage conditions.
Animal testing showed effects on embryo-fetal development at levels equal to or above those causing maternal toxicity.

Metsulfuron methyl
Repeated dose toxicity: The following effects occurred at levels of exposure that significantly exceed those expected under labeled usage conditions.

Oral
Rat
- Reduced body weight gain, Organ weight changes, Liver
Carcinogenicity
Not classifiable as a human carcinogen.
Did not show carcinogenic effects in animal experiments.

Mutagenicity
Animal testing did not show any mutagenic effects.
Did not cause genetic damage in cultured bacterial cells.
Genetic damage in cultured mammalian cells was observed in some laboratory tests but not in others.

Reproductive toxicity
No toxicity to reproduction
Animal testing did not show any effects on fertility.

Teratogenicity
Animal testing showed no developmental toxicity.

Carcinogenicity
The carcinogenicity classifications for this product and/or its ingredients have been determined according to HazCom 2012, Appendix A.6. The classifications may differ from those listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or those found to be a potential carcinogen in the International Agency for Research on Cancer (IARC) Monographs (latest edition).

None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, or OSHA, as a carcinogen.

**Environmental Fate**

**Modified Lingin Sulfonate Salt**

**Bioaccumulation**

- Bioaccumulation is unlikely.

**Additional ecological information**

- Environmental Hazards: Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate.

---

**SECTION 13. DISPOSAL CONSIDERATIONS**

**Waste disposal methods - Product**

- Do not contaminate water, food or feed by disposal. Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. Treatment, storage, transportation, and disposal must be in accordance with applicable federal, state/provincial, and local regulations.

**Waste disposal methods - Container**

- Container Refilling and Disposal: Refer to the product label for instructions. Do not transport if this container is damaged or leaking.
In the event of a major spill, fire or other emergency, call 1-800-441-3637 day or night.

Contaminated packaging : No applicable data available.

Not regulated as a hazardous material by DOT.

SECTION 15. REGULATORY INFORMATION

Other regulations : This Safety Data Sheet is for a pesticide product registered by the US Environmental Protection Agency (USEPA) and is therefore also subject to certain labeling requirements under US pesticide law (FIFRA). These requirements differ from the classification criteria and hazard information required by OSHA for safety data sheets, and for workplace labels of non-pesticide chemicals. The following is the mandatory hazard information required by USEPA on the pesticide label:

CAUTION!

Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using...
the toilet. Avoid breathing dust or spray mist. Remove and wash
contaminated clothing before re-use.

SARA 313 Regulated
Chemical(s) : Chlorsulfuron

EPA Reg. No. : 352-827

In the United States this product is regulated by the US Environmental
Protection Agency (EPA) under the Federal Insecticide, Fungicide and
Rodenticide Act (FIFRA). It is a violation of Federal law to use this product in
a manner inconsistent with its labeling. Read and follow all label directions.
This product is excluded from listing requirements under EPA/TSCA.
