DUPONT™ LANNATE® SP INSECTICIDE

(EPA Reg. No. 352 - 342)

FOR USE ON NECTARINES AND PEACHES IN THE STATE OF WEST VIRGINIA

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Du Pont™ LANNATE® SP Insecticide is recommended for control of thrips on nectarines and peaches in West Virginia.

HOW TO USE

Apply 1/2 to 1 lb LANNATE® SP per acre.

Reentry into treated areas is prohibited for 3 days for nectarines and 4 days for peaches unless personal protective clothing and equipment specified on the LANNATE® SP product label for early reentry are worn.

Do not apply more than 3 applications a season.

Do not apply within 1 day of harvest for nectarines and within 4 days of harvest for peaches.

Do not graze or feed livestock within 10 days of application.

IMPORTANT

BEFORE USING DUPONT™ LANNATE® SP, FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS, AND PRECAUTIONS ON THE EPA-REGISTERED LABEL.

Do not apply this product through any type of irrigation system.

This bulletin contains new or supplemental instructions for use of this product which may not appear on package label. Follow the instructions carefully.

This label must be in the possession of the user at the time of pesticide application.
