

EB MIX[®]

Foliar or soil applied nutrient package.

6-0-0

GUARANTEED ANALYSIS

Total Nitrogen (N)	6.00%
6.00% Ammoniacal Nitrogen	
Sulfur (S)	3.00%
3.00% Combined Sulfur	
Boron (B)	0.25%
0.25% Water Soluble Boron	
Iron (Fe)	1.00%
1.00% Chelated Iron	
Manganese (Mn)	3.00%
3.00% Chelated Manganese	
Zinc (Zn)	2.00%
2.00% Chelated Zinc	
Derived from: Aqua Ammonia, Boric Acid, Iron Sulfate, Manganese Sulfate, and Zinc Sulfate.	

Warning: This fertilizer contains Boron, which may be injurious to certain crops. Contact your local county agent or field consultant for specific information.

WARNING KEEP OUT OF THE REACH OF CHILDREN, PETS AND LIVESTOCK

Mildly irritating to skin and eyes.

Refer To Safety Data Sheet (SDS) For Important,
Environmental, Safety, and Health Information

WARNING: This material should only be used as recommended. It may prove harmful when misused.

- Avoid contact with eyes
- Avoid contact with skin
- Avoid breathing fumes or spray mist
- Do not swallow
- Wash thoroughly after handling
- Harmful to aquatic life
- May damage fertility

First Aid: In the event of eye and/or skin contact - flush affected areas with large quantities of plain water. If irritation persists seek medical attention.

Personal Protective Equipment: Wear gloves and protective clothing. Wear eye protection (glasses, goggles or face shield)

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

PRECAUTIONARY STATEMENTS

WARNING: EB Mix[®] is considered a non-inhalation hazard. Always follow good industrial hygiene practices. Harmful if swallowed. If conscious, immediately give large quantities of water and induce vomiting. Seek medical attention immediately. Avoid contact with skin. In the event of skin contact, flush immediately and thoroughly flush with water. Causes eye irritation. Flush eyes immediately and thoroughly with water for 15 minutes. If irritation persists, seek medical attention.

GENERAL INFORMATION

EB Mix is recommended as a foliar or soil applied fertilizer for use on any food or fiber crop where the addition of one or more of the nutrients contained in EB Mix would be beneficial. A number of variables influence the rate of application necessary to control or correct a specific deficiency. For best results, follow good agronomic practices, soil test and, if necessary, use tissue analysis.

DIRECTIONS FOR USE

Foliar Application:

Apply 1 to 2 quarts/acre prior to or immediately after deficiency symptoms occur to prevent or alleviate losses from nutrient deficiencies. Spray carrier (water) volumes of 10 to 20 gallons per acre (ground) or 5 gallons per acre (air) are recommended for best repeat application of 1-2 quarts/acre may be needed 2 or more weeks following the initial application.

Soil Application:

Apply 1 to 2 quarts per acre as a starter fertilizer in a balanced fertility program.

Mixing Instructions when tank mixing with Glyphosate:

1. Start with clean spray tank
2. Fill the spray tank 1/3 to 1/2 full of water
3. While continuing to fill with water, add water conditioning product at recommended rates.
4. Add EB Mix
5. Add glyphosate herbicide
6. Fill remainder of tank and agitate

NOTE: All micronutrient additives have the potential to cause antagonism of glyphosate herbicides. A quality water conditioner such as Jackhammer or Ammonium Sulfate is recommended to help to alleviate antagonism potential. Excessive use of Boron containing products may cause Boron toxicity on some crops. DO NOT exceed recommended rates of Boron for the crop that this product is being applied.

STORAGE AND DISPOSAL

Storage: EB Mix freezes at 0° F. EB Mix should be stored in polyethylene or stainless steel tanks with polyethylene or stainless steel fittings.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) after mixing and loading product. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your

state and local ACRC recycler, visit the ACRC web page at www.acrecycling.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state, and federal laws and regulations.

ENVIRONMENTAL HAZARD

In the case of a spill, contain spill and maximize recovery.

Conditions of Sale and Warranty Limitation: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of CHS Inc. or the seller. All such risks shall be assumed by the buyer. CHS Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. CHS Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall CHS Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. CHS Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CHS Inc.
