Total Nitrogen (N) 0.20%
 0.20% Water Soluble Nitrogen
 Iron (Fe) 6.00%
 6.0% Chelated Iron
 Derived from Iron EDDHA [Ferric Ethylenediamine di-(o-hydroxy-phenyl acetate)].

FOLIAR SPRAY APPLICATION**DIRECTIONS:** Follow recommended dosage.

For outdoor plants in containers, bedding plants, flowers, ornamental shrubs, grapes, berries, fruit trees, citrus and vegetables:

Mix 1 level teaspoon of **GROW MORE IRON CHELATE** per gallon of water. Spray foliage to the run-off point. Repeat every 10-14 days as needed to correct the Iron deficiency. **Note: Do not apply to fruit or nut trees** during bloom or when fruits or nuts are on the trees (use soil application).

TURFGRASS: Use 6 to 8 tablespoons of **GROW MORE IRON CHELATE** per 1,000 sq. ft., apply with enough water (30-40 gallons) for full coverage spray. Repeat monthly or as needed.
