PRODUCT INFORMATION

FIELDGOAL™ is a blend of water conditioning agent, non-ionic surfactant and deposition agent. The product minimizes antagonistic effects of hard water minerals that can negatively impact the performance of herbicides. The surfactant ingredient in FIELDGOAL also provides spreading and coverage of the spray over the plant surface, improving the effectiveness of the spray material on the target species. The addition of FIELDGOAL to the spray mixture enhances deposition and minimizes off-target drift during a spray application. FIELDGOAL does not contain ammonium sulfate.

FIELDGOAL is designed to improve the performance of dicamba and other weak acid herbicides when used in tank mixes.

DIRECTIONS FOR USE

FIELDGOAL can be used with herbicides registered for use in agriculture, forestry, ornamental and turf settings, as well as, industrial, municipal, right-of-way, non-cropland and other sites.

Refer to the manufacturer's label websites for the latest list of dicamba approved tank mix products.

MIXING INSTRUCTIONS:

Fill spray tank one-half full with water and begin agitation. Add the required amount of FIELDGOAL while agitating. Continue filling the spray tank with water while adding other tank mix products. Add the remainder of water and continue agitation until all of the spray mixture has been sprayed.

GENERAL USE: Use 4-8 pints per 100 gallons of spray mixture depending on water hardness. Always follow the adjuvant use recommendations as shown on the pesticide label.

USE WITH ADVANCED DICAMBA PRODUCTS ON DICAMBA-TOLERANT CROPS: Use 5 pints per 100 gallons of spray mixture. Always check the pesticide manufacturer's website for the latest approved products. **DO NOT ADD THIS PRODUCT AT A RATE WHICH EXCEEDS 5% OF THE FINISHED SPRAY VOLUME.**

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly closed. Store in closed storage areas. Use caution when moving, opening, closing or pouring.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of federal law. Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations. Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate. Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures approved by state and local authorities. Recycling cleaned containers is the best option of container disposal. ACRC (Agricultural Container Recycling Council) operates a national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrecycle.org.
