PRODUCT INFORMATION

SHAKE WELL BEFORE USE

FORTIFY is a water dispersible, nonionic spreader-sticker adjuvant that is formulated to improve the efficiency of a variety of pesticides by increasing droplet spreading and adhesion onto leaf surfaces. FORTIFY enhances efficacy of herbicide, insecticide, and fungicide spray applications. FORTIFY works by reducing water surface tension to increase coverage while forming a protective film to adhere active ingredients to the plant surface. FORTIFY improves spray droplet deposition and suppresses off-target drift by producing a more uniform droplet spray pattern. The sticking properties in FORTIFY help to reduce tendency for wash-off of the spray deposit caused

DIRECTIONS FOR USE

For use with products registered for agricultural, forestry, industrial, municipal, non-cropland, ornamental, rights-of-way, turf, and other uses. **NOT FOR AQUATIC USE.** FORTIFY may be used by ground or air applications.

Always read and follow instructions of the pesticide label regarding the use of an adjuvant. If the pesticide label does not specifically recommend, yet does not prohibit, the use of a spreader-sticker adjuvant, the applicator should conduct an advance phytotoxicity test using a small volume of tank mix combinations to confirm compatibility and plant safety.

MIXING INSTRUCTIONS

1. Water as indicated by pesticide / fertilizer label instructions
2. Pesticide
3. Agitate
4. Add FORTIFY last to the tank mix

Rates per 100 Gallons Spray Mix

Defoliants, Desiccants, Herbicides 1 to 4 pints
Fungicides, Acaricides, Insecticides 1/4 to 2 pints
Wettable Powders 1/2 to 3 pints

In Concentrated Or Diluted Spray Applications: Use enough FORTIFY to allow for uniform wetting and deposition onto leaf surfaces without unnecessary run-off.

For Field Crop Applications: Use 1/4 pint to 2 pints per acre.

For Drift Suppression: Use at least 2 pints of FORTIFY per 100 gallons of spray mix to minimize off-target spray drift. Note: FORTIFY will not eliminate spray drift. Off-target drift

hazards vary with the type of pesticide and application conditions. FORTIFY improves spray deposition and suppresses drift by producing a more uniform spray pattern.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

STORAGE: Store product in original container only, away from other pesticides, fertilizers, food or feed. Do not allow water to be introduced to the contents of this container.

DISPOSAL: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents / container in accordance with local / regional / national regulations. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE.
