

NITRO Kelp+

GENERAL INFORMATION

FS NITRO Kelp+ is a seaweed derived from *Ascophyllum nodosum*, formulated for foliar and soil applications. FS NITRO KELP may be applied throughout the growing season with the foliar fertilizer program, as well as in the fall to increase nutrient release for next year's crop.

DIRECTIONS FOR USE

Add FS NITRO Kelp+ to spray tank last.

Foliar Application: All Crops

Apply at a rate of 1 to 4 pints / acre with sufficient water for optimal coverage. Supplemental and split applications will allow for maximum benefits of seaweed to the crop development.

Soil Application: All Crops

Apply at a rate of 2-4 quarts/acre.

CONDITIONS OF SALE

Follow directions carefully. Timing and methods of application, weather, and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product is beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
