

FertiClear™

KC-20

0-0-20

Guaranteed Analysis

Soluble Potash (K₂O).....20.0%

Derived from: Potassium Citrate

Each gallon Contains: 2.26 pounds of K₂O

Specific Gravity: 1.358

Density: 11.33 lbs/gal @ 68° F

pH Range: 8.1

Salt Out Temp: 20° F

WARNING

KEEP OUT OF REACH OF CHILDREN

EPA National Response Center: (800) 424-8802

GENERAL INFORMATION

FertiClear™ KC-20 is a low salt index, clear liquid solution. FertiClear™ KC-20 may be applied by sprinkler or flood irrigation. May be blended with other fertilizers or applied as a soil based treatment on selected crops. NOTE: This product does not supply all nutrients required by plants and is to supplement a soil fertility program based on soil tests.

DIRECTIONS FOR USE

All Rates should vary based on the severity of soil and plant tissue deficiency and degree of weather extremes.

Inject FertiClear™ KC-20 solution into the irrigation lines after filters. Thoroughly clean irrigation lines and system after injection of FertiClear™ KC-20 solution by flushing irrigation lines and system with clean water prior to turning off pumps.

FOLIAR APPLICATIONS

Note: FertiClear™ KC-20 should be applied in the late evening or early morning. DO NOT spray in the heat of the day. DO NOT spray when the plant is under moisture stress. Use as fine of a spray mist as possible. DO NOT spray to the point of runoff. Allow 3-4 hours after application before sprinkler irrigation to avoid washing the product off.

Field and Row Crops: Apply rate of 4 - 12 quarts per acre. Suggested total spray volume is 25-250 gallons per acre. Rates should vary on severity of deficiency symptoms or on the degree of weather extremes.

Trees and Vines: Apply rate of 4 - 12 quarts per acre. Suggested total spray volume is 25-100 gallons per acre. Rates should vary on severity of deficiency symptoms or on degree of weather extremes.

SOIL APPLICATIONS

Note: FertiClear™ KC-20 may be applied pre-plant, as a starter, side dress, fertigated, top dressed or banded to the soil. Dilute with water if needed to insure uniform distribution.

Trees and Vines: Apply 2-15 gallons per acre per application based on crop requirements.

Vegetable and Row Crops: Apply 2 - 15 gallons per acre per application based on crop requirements.

FERTIGATION APPLICATIONS

FLOOD AND FURROW APPLICATION: Trees and Vines: Apply 2-15 gallons per acre per application beginning at full leaf, schedule as needed.

Vegetable and Row Crops: Apply 2-15 gallons per acre per application, make second application based on crop requirements.

SPRINKLER AND DRIP IRRIGATION: Trees (under): Apply 2-15 gallons per acre every 10-14 days based on crop requirements. Inject after irrigation filter. After fertilizer injection, allow enough irrigation time to thoroughly flush the lines of any residual fertilizer.

Trees and Vines: Apply 2-15 gallons per acre based on soil levels and crop requirements.

Vegetable and Row Crops: Apply 2-15 gallons per acre per application based on crop requirements.

COMPATIBILITY

Use in accordance with recommendations of qualified individual or institution such as, but not limited to, a certain crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan. When tank mixing other products, "Jar Test" proportionally mixed components to confirm compatibility. When blending with other products, trial blends should be conducted before beginning large scale mixing. When blending with other pesticides and fertilizers, the sequence should be as follow: water, pesticide, fertilizer, micro-nutrients.

WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources (Seller) warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Seller and is accepted as such by the buyer. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of Seller's liability.
