

MISO+

MODIFIED VEGETABLE OIL CONCENTRATE

PRINCIPAL FUNCTIONING AGENTS: (BY WEIGHT)

Methylated Soybean Oil, Alkylphenol Ethoxylate 100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN WARNING

May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation. May be harmful if inhaled.

Precautionary Statements: Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust, fume, gas, mist, vapors or spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product.

NOTE: Read and follow all label directions and cautions on all products used.

Personal Protective Equipment: Wear protective gloves, protective clothing, eye protection, face protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container or label with you when calling a Poison Control Center or Doctor, or going for treatment.

EYE CONTACT - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present, after the first 5 minutes, then continue cautiously rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: get medical advice or attention.

SKIN CONTACT - IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash skin with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. If skin irritation occurs: Get medical advice or attention.

INGESTION - IF SWALLOWED: Call a POISON CENTER, doctor or physician if you feel unwell. Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

INHALATION - IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

WA Reg. No. 71089-10001

MSO+

GENERAL INFORMATION

GENESIS MSO+ is a blend of highly refined and modified seed oil, and superior nonionic surfactants. **GENESIS MSO+** unique chemistry allows for superior wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve coverage. The addition of **GENESIS MSO+** to a spray tank solution will improve a spray application by physically modifying the deposition and wetting characteristics of the spray solution, the result being a more uniform spray deposit.

This product cannot be used for aquatic applications.

The use of **GENESIS MSO+** can increase activity where the following factors occur, but are not limited to:

1. When used in areas of the country with low relative humidity and high temperatures.
2. When target species are larger than label recommendations at time of application.

DIRECTIONS FOR USE

Use **GENESIS MSO+** in spray mixture at a rate of 1 to 2 pints per acre. Higher rates may be required for hard-to-control weeds, or weeds which are under stress.

NOTE: The application rates on this label are based on pesticide labels, which recommend the use of Methylated soybean oil or nonionic surfactant. Rates of this product may be increased or decreased. For optimum results, follow pesticide labeling for proper recommendations. The addition or spray adjuvant to some pesticide or pesticide tank mix combinations may cause phytotoxicity to the foliage and/or fruit of susceptible crops. Before using **GENESIS MSO+** where an oil additive may not be recommended, the user or applicator advisor must have experience with the combination, or must have conducted a phytotoxicity trial.

MIXING INSTRUCTIONS

Prior to pesticide application, clean mixing application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water. If foaming is anticipated, the addition of an antifoaming agent should be added before pesticides, nutrients, or **GENESIS MSO+**. While under agitation pesticides and/or fertilizers should be added as directed by label or in the following sequence: Powders (soluble), Powders (dry),

Liquid flowables and suspensions, Emulsifiable concentrates and solutions. Continue agitation and add **GENESIS MSO+**. After the addition of **GENESIS MSO+** reduce agitation and allow to mix for 1 to 2 minutes. Continue filling tank while under minimal agitation.

NOTE: For optimum results, spray mixes containing **GENESIS MSO+** should be applied within 36 hours.

STORAGE AND DISPOSAL

Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

NOTE: Keep out of lakes, ponds or streams. Do not contaminate water sources by run-off from cleaning of equipment, disposal of rinse waters or spray mixtures.

WARRANTY STATEMENT: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
