## GoldSky<sup>®</sup>

EPA Reg. No. 62719-582

### Crop Rotation Intervals

For Distribution and Use in All States Except Idaho, Oregon, and Washington

#### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for GoldSky<sup>®</sup> herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of GoldSky according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for GoldSky.

### Directions for Use

The following rotational crops may be planted at the indicated interval following application of GoldSky.

#### Crop Rotation Intervals for All States Except Idaho, Oregon, and Washington

Numbers in parentheses (-) refer to Crop Specific Rotation Information.

Crop	Rotation Interval (Months) <sup>1</sup>
wheat, triticale	1
barley, field corn, grasses, millet, oats, popcorn, seed corn, sweet corn, grain sorghum	9
alfalfa, camelina, canola, chickpea, cotton, dry bean, pea (dry and succulent), flax, lentil, mustard, potato, safflower, sugar beet, sunflower	
other crops not listed	12

#### Crop Specific Rotation Information:

<sup>1</sup>Minimum number of months that must elapse before planting other crops after application of GoldSky.

**Note:** GoldSky is degraded primarily by microbial activity and break down more rapidly under favorable soil moisture and temperature conditions. Correspondingly, the rate of degradation may be slower under extreme conditions of drought or cold temperatures. When soil moisture conditions are abnormally dry during the interval between an application of GoldSky and planting the next crop, conduct a field bio-assay by planting test strips of the desired rotational crop. Monitor the test strips during germination and emergence for any abnormal growth to determine if the rotational crop can be grown successfully.

**Note:** This product may contaminate surface water due to runoff of rainwater. Refer to the Environmental Hazards section of the product label attached to the product container for required protective measures.
