

GOLD'n GRO®

Multi-Nutrient Liquid Fertilizers

10-0-0 + 4%Fe

GUARANTEED ANALYSIS	
Total Nitrogen (N)	10.00%
5.40% Ammoniacal Nitrogen	
0.30% Nitrate Nitrogen	
4.30% Urea Nitrogen	
Sulfur (S)	4.00%
Iron (Fe)	4.00%
4.00% Chelated Iron (Fe)	

Derived From: Lo-biuret Urea, Ammonium Thiosulfate, Aqueous Ammonia, Ammonium Nitrate, Ferrous Sulfate, and Iron EDTA. Chelated with Citric Acid and EDTA (Ethylenediaminetetraacetic acid)

KEEP OUT OF REACH OF CHILDREN

WARNING

Harmful if swallowed. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist.

F1548 FOR AGRICULTURAL AND PROFESSIONAL USE ONLY

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

GENERAL INFORMATION

This concentrated product is corrosive for iron, copper, zinc, brass, bronze, and aluminum. Tanks for storage of concentrated product can be polypropylene, 304 or 316 stainless steel, or cross-linked polyethylene. Fiberglass, iron and aluminum tanks should be avoided. It is okay to use fiberglass and 304 stainless spray tanks for ground spray rigs and aluminum for aerial applications. Do not store fertilizer mix in spray tanks. Flush lines after using.

DIRECTIONS FOR USE:

This product is a chloride-free, lo-biuret fertilizer. **GOLD'n GRO® 10-0-0 + 4% Fe** can be used on turf, ornamentals, wine, table, and raisin grapes, field crops including cereal grains, fruit and nut trees, citrus, and avocados.

The total amount required per acre per year per crop may be determined by standard grower practice. Maximum quantity applied per acre per year should not exceed 15 gallons (157 pounds) in the State of Washington.

Spray applications for turf, ornamentals, all varieties of grapes, vegetables, other field crops including cereal grains, fruit and nut trees, citrus and avocados should be done using a mix no more concentrated than 2 quarts in 10 gallons of water. Do not foliar apply when temperature exceeds 90° F.

Add the **GOLD'n GRO** products to water. Use a bottle test for mixtures with other products before proceeding with a full-scale mix.

When **GOLD'n GRO 10-0-0 + 4% Fe** may be applied through drip, sprinkler, and micro sprinkler irrigation or injected directly into the soil as in sidedress or listing operations.

When **GOLD'n GRO 10-0-0 + 4% Fe** is injected in drip, drip tape, or micro sprinklers, a jar test for water compatibility with the irrigation water is recommended.

GOLD'n GRO 10-0-0 + 4% Fe is compatible with most fungicides, herbicides, and insecticides. When in doubt, do a jar test or contact your supplier. When combining with fungicides, herbicides, or insecticides, follow the manufacturer's instructions as to placement, dilution rates and all other precautions. When plants are exhibiting chlorosis or other symptoms of micronutrient deficiency, a combination of foliar and soil applications may be desirable.

GENERAL APPLICATION RATES AND TIMINGS:

Vegetables and Field crops. General Use. (Drench, Soil applications): 1 to 12 qt./acre. Begin applications at first sprinkler application (fertigation) or sidedress after emergence. Application schedule will be dependent on crop, variety and cultural practices of the region.

Vegetables and Field crops. General Use. (Foliar application): 1 to 2 qt./acre. Begin applications at two-leaf stage. Application schedule will be dependent on crop and cultural practices of the region.

Citrus, Avocados (Drench, Soil application): 1 to 12 qt./acre. Begin applications in early spring. Continue as needed. For severe deficiencies, apply moderate to high rates in the fall. Compliment with a spring application.

Citrus, Avocados (Foliar): 1 to 4 qt./acre. Begin applications at first flush of growth in the spring. Use higher rates on larger trees. For trees with "winter yellows" syndrome, apply moderate to high rates in the fall. Compliment with spring application.

Deciduous fruit and nut trees (Drench/Soil application): 1 to 12 qt./acre. Begin applications in late winter. Application schedule will be dependent on crop and cultural practices.

Deciduous fruit and nut trees (Foliar application): 1 to 8 qt./acre. Begin applications as leaves

emerge. Repeat as necessary. On smooth-skinned fruits (such as pears, apples, plums, nectarines) do not apply after shuck split.

Grapes (Drench/Soil application): 1 to 16 qt./acre. Begin applications in late winter. Repeat as necessary.

Grapes (Foliar application): 1 to 4 qt./acre. Begin applications as soon as leaves emerge. Repeat as necessary. On table grapes do not apply after fruit set.

Commercial and residential lawns, golf course tees and greens, Golf course fairways: 8 to 16 oz./1,000 sq. ft. (2.5-5 gal/acre). Rate is based on monthly applications during the growing season. Rates will vary with season and frequency of application. Monthly rate may be split and applied more frequently (micro fertilization).

Ornamentals (Drench, Soil applications) : 1 to 12 qt./acre. 1 to 3 applications per season.

Ornamentals (Foliar): 1 to 4 qt./acre. Hand application: 1 quart in 20 gallons. Mechanical application: 1 quart in 10 gallons. Thorough coverage is a must.

STORAGE and DISPOSAL

STORAGE: STORE BETWEEN 41°F AND 104°F. **Shake well before using.** Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. Store at ambient temperatures. Do not contaminate water, food, or feed by storage or disposal. **DISPOSAL:** Do not reuse container. Plastic: Triple rinse (or equivalent), adding rinse water to spray tank, then offer for recycling at an ACRC site (go to <http://www.acrecycle.org/> for locations) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food, or feed by storage or disposal.

HANDLING: Avoid breathing fertilizer mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.
