

GOLD'n GRO®

Multi-Nutrient Liquid Fertilizers

9-0-1 7% Zn

GUARANTEED ANALYSIS

Total Nitrogen (N)	9.00%
4.40% Ammoniacal Nitrogen	
0.30% Nitrate Nitrogen	
4.30% Urea Nitrogen	
Soluble Potash (K ₂ O)	1.00%
Sulfur (S)	1.30%
Zinc (Zn)	7.00%
7.00% Chelated Zinc (Zn)	

Derived From: Lo-biuret Urea, Ammonium Thiosulfate, Aqueous Ammonia, Potassium Hydroxide, Potassium Nitrate, Potassium Thiosulfate, and Zinc EDTA.
Chelated with EDTA (Ethylenediaminetetraacetic acid)

KEEP OUT OF REACH OF CHILDREN

WARNING

Harmful if swallowed. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist.

F1548
FOR AGRICULTURAL OR COMMERCIAL USE ONLY

GENERAL INFORMATION

This concentrated product is corrosive for iron, copper, zinc, brass, bronze, and aluminum. Tanks for storage of concentrated product can be polypropylene, 304 or 316 stainless steel, or cross-linked polyethylene. Fiberglass, iron and aluminum tanks should be avoided. It is okay to use fiberglass and 304 stainless spray tanks for ground spray rigs and aluminum for aerial applications. Do not store fertilizer mix in spray tanks. Flush lines after using.

DIRECTIONS FOR USE:

This product is a lo-biuret fertilizer. **GOLD'n GRO® 9-0-1 + 7% Zn** can be used on turf, ornamentals, wine table, and raising grapes, field crops including cereal grains, fruit and nut trees, citrus, and avocados. The total amount required per acre per year per crop may be determined by standard grower practice. Maximum quantity applied per year should not exceed 10 gallons (103 pounds) in the State of Washington.

Spray applications for turf, ornamentals, all varieties of grapes, vegetables, other field crops including cereal grains, fruit and nut trees, citrus, and avocados should be done using a mix no more concentrated than 2 quarts in 10 gallons of water. Do not foliar apply when temperature exceeds 90°F.

Add the **GOLD'n GRO** products to water. Use a bottle test for mixtures with other products before proceeding with a full-scale mix. **GOLD'n GRO 9-0-1 + 7% Zn** may be applied through drip, sprinkler, and micro sprinkler irrigation or injected into the soil as in sidedress or listing operations. When **GOLD'n GRO 9-0-1 + 7% Zn** is injected in drip, drip tape or micro sprinklers, a jar test for compatibility with the irrigation water is recommended.

GOLD'n GRO 9-0-1 + 7% Zn is compatible with most fungicides, herbicides, and insecticides. When in doubt, do a jar test or contact your supplier. When combining with fungicides, herbicides, or insecticides, or follow the manufacturer's instructions as to placement, dilution rates, and all other precautions. When plants are exhibiting chlorosis or other symptoms of micronutrient deficiency, a combinations of foliar and soil applications may be desirable.

GENERAL APPLICATION RATES AND TIMINGS:

Citrus, Avocados (Soil application): 1-12 qts./acre. Apply to soil where uptake to roots may be expected.

Citrus, Avocados (Foliar): 1-8 qts./acre. Apply at first flush in the spring. Repeat applications as necessary. Use higher rates on larger trees.

Field & vegetable crops. General Use. (Soil application): 1-8 qts./acre. Use higher rates for broadcast operations. Adjust injected rates proportionately.

Field & vegetable crops. General Use. (Foliar application): 1-3 qts./acre. Begin applications when plants are 6 to 8 inches in height (6-8 inches across for low-growing plants). Repeat as necessary.

Deciduous fruit and nut crops (Soil application): 1-12 qts./acre. Apply to soil where uptake to roots may be expected.

Deciduous fruit and nut crops (Foliar application): 1-8 qts./acre. Applications may be made to dormant trees as well as bloom and foliage sprays. Use higher rates on larger trees.

Grapes (Soil application): 1-8 qts./acre. Begin with first fertilizer application of the season. Repeat as necessary.

Grapes (Foliar application): 1-2 qts./acre. Begin when leaves emerge. Repeat as necessary. Increase rates as foliage increases.

General use (Foliar application): 1-12 qts./acre. For hand application 1 quart in 20 gals is recommended. For mechanical application a maximum of 2 qts. in 10 gallons of water is recommended. Thorough coverage is a must.

General use (Soil applications): 10-12 qts./acre. Rates are based on broadcast applications. Rates will be determined by crop, variety and cultural practices of the region.

Lettuce, Celery (Fertigation/Soil Application): 1-2 qts./acre. Drench apply with irrigation water as needed.

Potatoes (Soil): 1-8 qts./acre. Application schedule will be dependent on the cultural practices of the region.

Potatoes (Foliar): 1-3 qts./acre. Application schedule will be dependent on the cultural practices of the region.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

STORAGE and DISPOSAL

STORAGE: STORE BETWEEN 41°F AND 104°F. **Shake well before using.** Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. Store at ambient temperatures. Do not contaminate water, food, or feed by storage or disposal. **DISPOSAL:** Do not reuse container. Plastic: Triple rinse (or equivalent), adding rinse water to spray tank, then offer for recycling at an ACRC site (go to <http://www.acrecycle.org/> for locations) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food, or feed by storage or disposal.

HANDLING: Avoid breathing fertilizer mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.
