Molybdenum (Mo).....	0.001%
Zinc (Zn).....	0.05%
0.05% Chelated Zinc (Zn)	

Derived from: Urea, Potassium nitrate, Ammonium phosphate, Magnesium sulfate, Iron EDTA, Manganese EDTA, Zinc EDTA, Copper EDTA, Sodium Borate, Sodium molybdate, Kelp Extract (Ascophyllum nodosum), Potassium Hydroxide

*10.2% Stabilized nitrogen dicyandiamide (DCD) 2.1% and N-(n-butyl)-thiophosphoric triamide 0.08%.

KEEP OUT OF REACH OF CHILDREN

WARNING

Harmful if swallowed. Causes skin irritation.

Causes serious eye irritation. May cause respiratory irritation.

Suspected of damaging fertility or the unborn child.

PRECAUTIONARY STATEMENTS

Avoid breathing dust. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Wear protective gloves, eye protection and face protection.

FIRST AID

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. **IF SWALLOWED:** Call a poison control center or doctor for treatment advice if you feel unwell.

Rinse mouth.

IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash it before reuse.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor for treatment advice if you feel unwell.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **Storage:** Store in a locked area away from children, feed and food products. Ensure that the area is clean and dry. Reseal opened bags by folding down and securing the bag. To minimize application problems, do not store unused product in sprayers for long periods of time.

Disposal: Dispose of contents/container in accordance with Federal, state and local regulations.

GENERAL INFORMATION

Gravity S 26-8-16 is a 100% soluble fertilizer for growing plants, such as turf and ornamentals. **Gravity S 26-8-16** is specifically formulated to provide immediate plant response as well as longer term plant response.

A number of variables influence the rate of application necessary to prevent or correct a specific deficiency. For best results, follow good agronomic practices and conduct soil and tissue tests. Additional fertility may need to be supplied from other sources. For specific recommendations, consult your state or local plant expert.

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.html>

DIRECTIONS FOR USE - READ ENTIRE LABEL BEFORE USING

Caution: Over-application or excessive use of boron, or use on plants other than those listed as having a boron response, can result in boron toxicity and may cause serious crop injury.

Warning: Molybdenum can be toxic to plants. Make sure your soil indicates the need for additional molybdenum prior to seed treatment or fertilizer use. The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

In **Virginia**, this lawn fertilizer, which contains phosphorous, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

In **Maryland and Pennsylvania**, this product is to be used as a seed starter fertilizer for newly established lawns or turf only. Apply this product at no more than 0.7 lbs. Nitrogen per 1,000 sq. ft.

For Turfgrass Applications: Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected.

GOLF COURSES: **Gravity S 26-8-16** should be applied at 0.25 to 4 lbs per 1,000 sq. ft. every 7 to 21 days as needed during the growing season. Spray volumes can range from 1 to 4 gallons per 1,000 sq. ft. for adequate coverage. **Gravity S 26-8-16** may be used on greens, tees, fairways, roughs, and other turf areas composed of turfgrasses including, but not limited to: Bluegrass, Perennial Ryegrass, Tall Fescue, Annual Bluegrass, Bentgrass, Bahiagrass, St. Augustinegrass, Zoysiagrass, Centipedegrass, Seashore Paspalum, and Bermudagrass. For best results do not irrigate or mow until sprayed area has completely dried.

TREES AND ORNAMENTALS: **Gravity S 26-8-16** should be applied at 1 to 4 lbs per 1,000 square feet of landscaped area every 7 to 21 days as needed during the growing season. For container grown products, trees or other ornamentals apply a foliar spray or soil drench at a rate of 10 to 15 lbs. per 100 gals of water. Prior testing is required before applying to open flowers

Total nutrient Rate in lbs/ 1000 Square Feet

26-8-16	Nitrogen	Ammoniacal N	Nitrate N	Urea N	P ₂ O ₅	K ₂ O
0.25	0.065	0.004	0.011	0.051	0.020	0.040
0.5	0.130	0.007	0.022	0.101	0.040	0.080
1	0.260	0.014	0.044	0.202	0.080	0.160
2	0.520	0.028	0.088	0.404	0.160	0.320

Ounces of Product needed to mix one gallon of concentrate

Injector Ratio	100 (N/PPM)	150 (N/PPM)	200 (N/PPM)	300 (N/PPM)	500 (N/PPM)
1:100	5.1	7.7	10.3	15.4	25.6
1:200	10.3	15.4	20.5	30.8	51.3
1:300	15.4	23.1	30.8	46.2	76.9

Potential acidity -728 (lbs calcium carbonate/ton)

Maximum solubility is 3 lbs per gal of water.

BACKPACK SPRAYER: Mix 1 to 3 teaspoons of product per gallon of water.

SPRAY COVERAGE AND DRIFT CONTROL: To optimize spray coverage or deposition, and to reduce drift, include Droplex® adjuvant.

MIXING INSTRUCTIONS: Agitation will aid in getting the product to go into solution. If carrier water is cold, user may need to pre-mix the soluble fertilizer with warmer water in a separate container prior to adding it into the sprayer.
