

Quillaja saponaria / Yucca schidigera proprietary blend

NONPLANT FOOD INGREDIENT

Active Ingredients:

55%..... Quillaja saponaria extract
45%..... Yucca schidigera extract

GENERAL INFORMATION

When used as suggested, GroActive helps root development, plant growth due to the surface activity of Quillaja and Yucca extracts which improve water activity in the soil by increasing water penetration and retention.

DIRECTIONS FOR USE

Read and follow all label instructions prior to application of product.

Do not use if recommendation and application are inconsistent with label instructions.

Soil: Amendment applied through drip irrigation or sprinkler irrigation.

For hard compacted soils: Mix with irrigation water at a rate of 3 gallons/acre preferably at or before root flush.

For normal soils: Mix with irrigation water at rate of 8 to 32 ounces per acre once every 7 days as needed.

For use with seeds: Apply at 1 to 2 ounces per acre in the seed furrow at time of sowing to help water penetration of seed.
