DERIVED FROM: Hydrolyzed Soy Protein, Potassium-Magnesium Sulfate, Copper Sulfate, Ferrous Sulfate, Manganese Sulfate, Sodium Borate, Molybdc Oxide, Zinc Sulfate. Citric acid as chelating agent.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

0.5% Humic Acids derived from seaweed extract.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

May be harmful or irritating to eyes. Do not ingest. Avoid contact with eyes. Do not inhale spray mist.

SHAKE WELL BEFORE USING

Grow Getter Plus meets current guidelines for fertilizers used in organic food production where micronutrient deficiencies are present.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm>.

NOTICE OF WARRANTY - Westbridge warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness for other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Westbridge. In no case shall Westbridge be liable for consequential, special or indirect damages resulting from the use or handling of this product. GROW GETTER PLUS

FOLIAR 1-0-1

A Liquid Plant Food with Chelated
Micronutrients and Natural Humates for
Nourishing the Plants Growth

PRODUCT INFORMATION

Grow Getter Plus is a liquid plant food containing nitrogen and potassium essential for shoot growth. It also contains boron, copper and zinc which are essential for bud initiation, flower development, fruit set, retention and development.

Grow Getter Plus contains micronutrients that are chelated with citric acid to provide improved nutrient availability for plant uptake.

Grow Getter Plus nutritional program improves flower and leaf nutrition and vigor, which can lead to increase photosynthesis, flower fertilization, and promotes increased yield potential.

Grow Getter Plus nutrients are formulated to provide a fast method to boost plants under nutrient stress periods, and for the correction of nutrient deficiencies.

Grow Getter Plus is compatible with most liquid fertilizers, insecticides, fungicides, herbicides and nematicides. Check the compatibility of untried chemical mixes.

Grow Getter Plus can be applied to avocados, citrus, fruit, vines, vegetables, trees, field crops or ornamentals and turf.

Grow Getter Plus is nonphytotoxic when used as directed.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING

Avocados: Dilute in water and apply to plant foliage using conventional ground or aerial spray equipment. Apply **Grow Getter Plus** at floral bud initiation in the fall, at the popcorn or cauliflower stage and at the beginning of rapid fruit growth. Use 1 to 2 qts of **Grow Getter Plus** per acre per application.

Citrus: Dilute in water and apply to plant foliage using conventional ground or aerial spray equipment. Apply **Grow Getter Plus** 2 to 4 weeks pre-bloom, 3 to 6 weeks after spring growth flush, and at the beginning of rapid fruit growth. Use 1 qt of **Grow Getter Plus** per acre per application.

Tree Crops: Dilute in water and apply to foliage at bloom, followed by a second application 3 weeks later, and a third in the fall prior to leaf drop. Use 1 qt of **Grow Getter Plus** per acre per application.

Field and Row Crops: Dilute in water and apply to plant foliage starting at the 4-leaf stage and repeat at 2-week intervals. Use 1 qt of **Grow Getter Plus** per acre per application.

Nursery and Container Plants: Dilute at a rate of ½ pint of **Grow Getter Plus** per 100 gal water and apply to the plant foliage to the point of runoff in single or multiple applications.

Turf: Apply in irrigation water or surface apply and water in. Use 2 ounces **Grow Getter Plus** per 1,000 square feet monthly during periods of active root growth.

Use best management and use practices when applying **Grow Getter Plus**. Use additional fertilizers as needed based on soil and tissue testing.
