	(as amenueu)	
Section 5: Fire-Fighting Measures:		
	Not considered flammable or combustible, but this product will burn if involved in a fire. Avoid ignition sources where dust might be generated.	
Suitable Extinguishing Media:	Non-combustible product. Use an appropriate extinguishing media and technique for underlying cause of fire.	
Special Hazards Arising from the Substance or Mixture:	Fire may produce a thick dark smoke. As a consequence of thermal decomposition, dangerous chemicals may be formed such as carbon monoxide and carbon dioxide. Exposure to the combustion byproducts may be hazardous to human health.	
Protective Actions for Fire Fighters:	Firefighters should wear protective clothing and approved respirator/ SCUBA equipment as necessary.	
Section 6: Accidental Release Meas		
Personal Precautions:	Wear protective gear, avoid breathing dust. Contain spill. Avoid making dust when cleaning up. Recover dry product by sweeping to collect. Dispose of properly. Flush area with water to remove final traces. Recovery of liquid product: use an appropriate absorbent material such as cat litter, sand or sawdust to adsorb product. Dispose of appropriately according to local and state or national regulations.	
Section 7: Handling and Storage		
Precautions for Safe Handling:	Keep out of the reach of Children. Store in a dry, well-ventilated area in tightly closed containers to prevent entry of moisture. Avoid sub- freezing temperatures and temperatures above 120F.	
	Avoid breathing dust or use in an area with adequate ventilation	
	Avoid contact with skin, eyes or clothing. Wash thoroughly after handling.	
	wash thoroughly after handling.	
Section 8: Exposure Controls/Personal Protections		
Ventilation:	Always ensure adequate ventilation when product is handled.	
Protective Equipment:	Use of non-absorbent gloves, standard protective
