

# SULFUR

## GUARANTEED ANALYSIS 8-0-0

Total Nitrogen (N) ..... 8.00%  
8.00% Ammoniacal Nitrogen  
Sulfur (S) ..... 10.00%  
10.00% Combined Sulfur (S)

Derived from: Ammonium Sulfate.

## DIRECTIONS FOR USE

- Shake well before use. • Designed to be applied by both soil and/or foliar application. • SULFUR should be applied when turf or ornamental tissue and soil analysis identifies the need and proper rate of application for this product. • Best results will be obtained when application is concentrated in the active root zone or on the leaf surface. • Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. • If compatibility is in question, jar test a small quantity. • Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. • Do not apply this product foliarly in concentrations greater than 5%. • For maximum results, apply in the early morning or in the evening when air temperatures are optimum for foliar application. • Do not apply HUMA GRO® TURF nutrients during the hottest time of the day or to turf or ornamentals under drought or flood stress. • Application timing, intervals and rates may vary according to turf or ornamental requirements, stage of development, available nutrient levels in the soil, and overall nutritional status of the plants.
- Applications can be made as often as every 7 to 10 days as needed.
- Consult your local HUMA GRO® TURF Representative or other turf or ornamental specialist for specific recommendations. • Do not store this product below 50°F (10°C) or above 90°F (30°C).

**This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by turf and ornamentals.**

### STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state and/or federal regulations.

### CONDITIONS OF SALE:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, plant conditions and other factors are beyond the control of the seller.

CAUTION: KEEP OUT OF REACH OF CHILDREN

## METHOD OF APPLICATION

Turf & Sod / Nursery & Ornamentals  
SUGGESTED RATE PER 1,000 sq. ft.

SUGGESTED RATE PER ACRE

Foliar broadcast spray or fertigated through sprinkler system	up to 2 ounces / up to 3 ounces up to 2 quarts / up to 1 gallon
Soil applied through drip tape or micro sprinklers	*** / up to 3 ounces *** / up to 1 gallon
Soil broadcast spray incorporated	up to 3 ounces / up to 6 ounces up to 1 gallon / up to 2 gallons
