

X-TEND® B

GUARANTEED ANALYSIS 6-2-0

Total Nitrogen (N) 6.00%
6.00% Urea Nitrogen
Available Phosphate (P₂O₅) 2.00%

Derived from: Urea, Phosphoric Acid.

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:

6% Organic Matter (derived from leonardite)

DIRECTIONS FOR USE

• Shake well before use. • Designed to be applied by soil application.
• X-TEND® B should be applied when soil analysis identifies the need and proper rate of application for this product. • After adding X-TEND® B to solutions, allow 24 to 48 hours for Micro Carbon complexing to occur. • Use caution when adding to high analysis/ multi-nutrient solutions, highly acidic or basic solutions, or unstable suspensions. • When complexing phosphate fertilizer solutions consider using HUMA GRO® SUPER PHOS® instead or in addition to X-TEND® B. • Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid nutrients. • If compatibility is in question, jar test a small quantity. • When impregnating X-TEND® B to a granular fertilizer with relative humidity levels over 80%, apply granular directly to the field without allowing the product to sit or store, otherwise clumping may occur. • For maximum results, incorporate liquids or granules into the soil mechanically or with proper irrigation. • Application timing, intervals and rates may vary according to individual crop requirement, stage of development, available nutrient levels in the soil, and overall nutritional status of the crop. • Applications can be made as often as every 15 to 20 days as needed. • Consult your local HUMA GRO® representative or other agricultural specialist for crop-specific recommendations. • Do not store this product below 50°F (10°C) or above 90°F (30°C).

This product is intended as a supplement to a complete fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.

STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state and/or federal regulations.

METHOD OF APPLICATION

SUGGESTED RATE PER ACRE

General application to soil

up to 1 quart per acre

Liquid fertilizer solutions
(soil applied)

1 quart per 40 gallons of liquid

Dry, non-coated,
granular fertilizers

2 quarts per ton of granular

CONDITIONS OF SALE:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller.

CAUTION: KEEP OUT OF REACH OF CHILDREN

A clear to hazy, blue, moderately alkaline liquid having no characteristic odor. The liquid and mists may be irritating to the eyes and the skin, with some blue tinting of the skin. Inhalation of mists may be irritating to the entire respiratory tract. Ingestion of this product can cause gastrointestinal irritation or pain, with possible cardiovascular and central nervous system effects.

CLASSIFICATION: HAZARD CATEGORY 5—MAY BE HARMFUL IF SWALLOWED

SIGNAL WORD: WARNING

HAZARD STATEMENT: H303—WARNING—May be harmful if swallowed.

PRECAUTIONARY STATEMENT: P312 Call a poison center/doctor/physician if you feel unwell.

CLASSIFICATION: HAZARD CATEGORY 3—MILD SKIN IRRITATION

SIGNAL WORD: WARNING

HAZARD STATEMENT: H316—WARNING—Causes mild skin irritation.

PRECAUTIONARY STATEMENT: P332+P313 If skin irritation occurs, get medical attention/advice.
