DIRECTIONS FOR USE

Always shake, stir or agitate containers or tanks of **Humitech® 21** just prior to usage. **Humitech® 21** is compatible with most pesticides, herbicides and defoliants except selective herbicides. Determine compatibility with a jar test before mixing products and/or consult pesticide representative.

Humitech® 21 can be applied by side dress and banding equipment, water run through irrigation systems or sprayed directly on soils with other fertilizer materials. **Humitech® 21** blends can be soil applied and water run on all crops at rates of 1 to 10 gallons per acre. It is best to use materials in split application with other fertilizer and micronutrient products at 1 to 3 gallons per acre in 2 to 4 applications.

Humitech® 21 can be impregnated onto dry fertilizer.
