PRODUCTS®

**Personal Protective Equipment:** Wear protective gloves/protective clothing/eye protection.

#### **FIRST AID**

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

**FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL 1-866-944-8565.**

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

#### **GENERAL INFORMATION**

INFUSE® is an adjuvant designed to be used with pre-plant and pre-emergent herbicides to increase the deposition to the soil. Infuse may be used with herbicide and/or fertilizer mixes where the label doesn't restrict oil based adjuvants.

#### **DIRECTIONS FOR USE**

**FOR USE WITH HERBICIDES REGISTERED FOR: AGRICULTURE, FORESTRY, INDUSTRIAL, MUNICIPAL, NON CROPLAND, ORNAMENTAL, RIGHTS-OF-WAY AND TURF (NOT FOR AQUATIC USE). FOR PRE-PLANT AND PRE-EMERGENT HERBICIDES ONLY.**

Prior to the addition of INFUSE to fertilizers and herbicides where the addition of surfactants is not specifically recommended, but not prohibited by the manufacturer, the user or application advisor must ensure compatibility of the products.

Fill spray tank 1/2 full with water and begin agitation. Add herbicides as directed by label, while maintaining agitation. After herbicides are thoroughly mixed, add INFUSE at recommended rate. Some herbicides have stated adjuvant use rates. In all cases, the herbicide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate should be followed. Do not add adjuvant at a level that would exceed 5% of the finished spray volume.

For ground applications of INFUSE with ground applied herbicides, use 1.0 to 4.0 pints per acre in 5.0 to 30.0 gallons of spray.

**CAUTION:** Do not mix oxidizing agents unless oxidizing agents are in solution.

#### **STORAGE AND DISPOSAL**

**STORAGE:** Store locked up. Store in a well-ventilated place. Store in a cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at [www.agrecycling.org](http://www.agrecycling.org)
