**KEEP OUT OF REACH OF CHILDREN
WARNING**

HAZARD AND PRECAUTIONARY STATEMENTS:

May be harmful if swallowed. This product should be kept out of reach of animals. Do not eat.

ENVIRONMENTAL PRECAUTIONS:

Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

PERSONAL PROTECTIVE EQUIPMENT (PPE):

Use standard protective clothing and equipment including gloves and eye and face protection. Consult the SDS for further information.

FIRST AID:

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If On Skin or Clothing: Take off contaminated clothing and wash it before reuse. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

HAVE THE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CALLING A POISON CONTROL CENTER OR DOCTOR, OR GOING FOR TREATMENT.

FOR HAZARDOUS MATERIALS OR DANGEROUS GOODS INCIDENTS ONLY (SPILL, LEAK, FIRE, EXPOSURE, OR ACCIDENT), CALL CHEMTREC AT 1-800-424-9300.

GENERAL INFORMATION:

Functions: Carbon rich nitrogen source, high availability & uptake, non-salt forming, reduced use rate, low phytotoxicity, reduced leaching & volatilization.

Inhabit N is highly available source of nitrogen source for either soil or foliar use. **Inhabit N** contains a micronized oxygen rich carbon source, derived from a unique deposit of leonardite, which may aid in the uptake of nutrients and may improve soil vigor and function. In addition, **Inhabit N** has low salt content, has reduced risk of leaching and volatilization, and enables high uptake through reduced use rates.

DIRECTIONS FOR USE:

Read all label directions carefully before using this product. This product is intended for use in all soils and crops.

Results are best when applied directly in the root zone or on the leaf surface. Product must be diluted with water in a ratio of at least 20 parts water to 1 part product prior to foliar application. Do not foliar apply this product in concentrations greater than 5%. Apply with enough water to ensure uniform coverage without running off leaf surface.

Do not foliar apply this product during the hottest time of the day or to plants under drought or flood stress.

Do not exceed the recommended application rate for this product. Do not apply this product undiluted.

TIMING & COMPATIBILITY:

For Soil and Foliar Application

Timing		Compatibility	
Pre-Plant	Good Performance	Herbicide	Compatible
In Furrow	Best Performance	Fungicide	Compatible
Pre-Emerge	Best Performance	Insecticide	Compatible
Early Vegetative	Best Performance	PGR	Compatible
Late Vegetative	Best Performance	Liquid Fertilizer	Compatible
Early Reproductive	Good Performance	Other Nutritional	Compatible
Late Reproductive	Good Performance		
Post-Harvest	Not Recommended		

Inhabit N is compatible in solution with most common tank mixes. Not every combination has been tested and some mixes may be incompatible. IAR TEST RECOMMENDED prior to use.

SHAKE WELL BEFORE USING

USE RATES:

Due to the improved uptake and availability, **Inhabit N** can typically be used at lower rates when compared to conventional UAN. **Inhabit N** can be used as a either a replacement to conventional products or in combination.

Inhabit N contains a conveniently pre-mixed carbon source. Additional carbons sources or humates are not required but may be added as desired.

Inhabit Boost can be added at a rate of 16 - 32 fl oz. (475 – 950 ml) per acre, which is a highly compatible alternative to other liquid humic substances to further increase nutrient uptake.

Catalyst ADV may also be added at 16 to 32 fl oz. (475 – 950 ml) per acre to provide a complex nutrient source to increase nutrient availability.

Inhabit N Per Acre Use Rate

Application Type	All Crops
Foliar Broadcast	2 qt. to 2 gal (1.9 – 7.6 L)
In Furrow/Banded/Sidedress	1 to 10 gal (3.8 – 38 L)
Soil Broadcast	1 to 20 gal (3.8 – 76 L)

Rates are general. To address crop specific needs or deficiency issues consult with an agronomist.

MIXING INSTRUCTIONS:

Always start with equipment that has been thoroughly cleaned. Fill the tank with at least 40% of the final carrier volume unless otherwise stated on the specific product label. While the carrier is agitating, add tank mix ingredients in the following order:

1. Antifoam and / or compatibility agent
2. Dry formulations (WP, DF, WDG, SG, SP) and ammonium sulfate
3. Flowable formulations (F & FL), liquid concentrates or suspensions (LC, ME, SC, CS)
4. Emulsifiable concentrates (E or EC)
5. Add **Inhabit N** and other soluble liquids (S or SL) from low pH (<1.0) to high pH (>14.0)
6. Surfactants, water conditioners and other adjuvants
7. Finish filling and continue agitation

STORAGE AND DISPOSAL:

Storage: Store this product between temperatures of 50 °F (10 °C) and 90 °F (30 °C). Store in a cool, dry place and out of direct sunlight. Do not store diluted product. Stable under recommended storage conditions.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Recycling decontaminated containers is the best option of container disposal. Visit www.acrecycle.org for the recycling program nearest you.

CONDITIONS OF SALE:

Generic Crop Science, LLC and its affiliates, respective officers, directors, employees, agents, successors, (collectively, "GCS") warrants only that this product conforms to the product description on the label. Other than the foregoing Limited Warranty, this product is sold on an "as-is" basis. GCS disclaims to the fullest extent permitted by law, all other warranties of any kind, either express or implied, including, but not limited to: the implied warranty of merchantability, the implied warranty of fitness for a particular purpose, non-infringement, that the use of this product will cause or result in any particular outcome, the suitability of this product to control any specific agricultural pest or disease, or the product compatibility with other products or permitted tank mixes. If GCS breaches any of its warranties in relation to this product, buyer's and user's exclusive remedy for such breach is limited to GCS repairing or resupplying (at GCS's election) the relevant or comparable products in compliance with such warranty. To the fullest extent permitted by law, under no circumstances and under no legal theory (including, without limitation, tort, contract, strict liability, or otherwise) shall GCS be liable to user or buyer for (A) any direct, special, incidental, consequential, punitive or exemplary or indirect damages of any kind, including damages for lost profits, lost revenue, unrealized savings, crop loss, loss of yield, loss of goodwill, business interruption damages, work stoppage, or (B) any amount, in the aggregate, in excess of the amount actually paid for this product, exclusive of taxes, shipping & handling, and any other applicable fees, or (C) any other matter. GCS further disclaims any liability for compensatory or other damages arising out of any use contrary to the label direction. Some jurisdictions do not allow the exclusion or limitation of certain damages or limitations on how long an implied warranty last, so only portions of the above limitation and exclusions may apply to user or buyer if so restricted by law.
