## Instinct™

EPA Reg. No. 62719-583

EPA 24(c) Special Local Need Registration SLN OH-110003  
For Distribution and Use Only Within the State of Ohio

### Postplant Application in Corn

#### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Instinct™ nitrogen stabilizer before applying. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.
- Use of Instinct according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Instinct.

#### Directions for Use

Apply 18 to 35 fl oz of Instinct per acre as a postplant application in corn. The application may be injected, dribbled, or applied as a band with sidedress liquid fertilizer. Instinct may also be impregnated onto dry fertilizer and applied.

#### Restrictions:

- Any postplant application of Instinct must be applied prior to V6 stage of growth.
- Do not apply more than 70 fl oz of Instinct (1 lb ai nitrapyrin) per acre per year on corn.
- **Replant restriction:** See label affixed to the container for Instinct.
