

Interlink Vigilance™

PRINCIPAL FUNCTIONING AGENTS

Trisodium citrate dihydrate, alkyl polyglucoside C9-11, diethylene glycol...	34.75%
Constituents ineffective as spray adjuvants.....	65.25%
TOTAL.....	100.00%

All ingredients are exempt from a tolerance as specified in 40 CFR 180

KEEP OUT OF REACH OF CHILDREN WARNING

CAUSES EYE IRRITATION. CAUSES MILD SKIN IRRITATION. MAY CAUSE AN ALLERGIC SKIN REACTION. MAY CAUSE DAMAGE TO ORGANS THROUGH PROLONGED OR REPEATED EXPOSURE.

PRECAUTIONARY STATEMENTS

Wash thoroughly after handling. Wear protective gloves and eye/face protection. Contaminated work clothing should not be allowed out of the workplace. Avoid breathing dust, fumes, mist, vapors and spray. Get medical advice/attention if you feel unwell.

FIRST AID

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

IF SWALLOWED: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

IF INHALED: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

IF ON SKIN OR CLOTHING: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

INTERLINK VIGILANCE IS NOT FOR AQUATIC USE.

DISCLAIMER OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. This warranty is expressly in lieu of all other warranties and representations expressed, implied, or statutory, including warranties of merchantability and fitness for a particular use. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.

Water Conditioning Agent / Nonionic Surfactant Humectant / Drift Reduction Agent

GENERAL INFORMATION

Interlink Vigilance is a drift reduction and water conditioning agent formulated specifically for XtendiMax®, Engenia®, and FeXapan® tank mixes to reduce off-target drift. Interlink Vigilance imparts a neutral pH. Interlink Vigilance can eliminate antagonism of the spray tank caused by hard water minerals such as calcium, iron and magnesium. The surfactant ingredient in Interlink Vigilance improves spray droplet spreading and penetration into the targeted leaf surface. Interlink Vigilance provides humectancy to spray droplets resulting in a slower drying time for enhanced uptake of active ingredients. Interlink Vigilance can be used for a wide range of pesticide and nutrient spray mixtures when accompanying labels recommend water conditioners and spreader-wetter adjuvants.

DIRECTIONS FOR USE

For use with herbicides registered for use for agriculture, forestry, and industrial, municipal, ornamental, right-of-way, turf and non-cropland. Prior to using Interlink Vigilance, the user or application advisor must have experience with the combination of active ingredients or must have conducted a phytotoxicity trial. Interlink Vigilance may be applied by ground, CDA or aerial spray equipment.

Ground/Aerial for Water Conditioning/Buffering: Use 1 to 4 quarts per 100 gallons of spray mixture.

For Use As a Drift Reduction Agent for XtendiMax®, Engenia®, or FeXapan® Tank Mixes: Use 5 pints (minimum) to 8 pints (maximum) per 100 gallons in the spray mixture.

Do not use this product at a rate to exceed 1% v/v of finished spray tank mixture.

MIXING

Prior to any pesticide application, all spray equipment must be thoroughly cleaned. Carefully observe all tank cleaning directions on the pesticide label. Do not mix Interlink Vigilance with undiluted herbicides.

Unless instructed otherwise by accompanying pesticide label instructions, fill spray tank 1/2 full with water, add Interlink Vigilance first then continue filling tank. Add remaining pesticide or nutrient ingredients consistent with respective label directions.

STORAGE, DISPOSAL & SPILL

Do not contaminate water, food or feed by storage or disposal of this product.

STORAGE: Do not store below 32° F or above 120° F. Store in a well-ventilated place. Keep cool. Store in a tightly closed container. Store in original container only.

DISPOSAL: Triple pressure rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrcycle.org. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters. Dispose of contents and container in accordance with local and national regulations.

SPILL: In the event of a major spill, fire or other emergency, call CHEMTREC at (800) 424-9300.
