INVADE™

MODIFIED VEGETABLE OIL CONCENTRATE (MSO)

PRINCIPAL FUNCTIONING AGENTS:

Methylated Seed Oil, nonylphenol ethoxylate	100.00%
TOTAL:	100.00%

All ingredients exempt from the requirements of a tolerance under 40 CFR 180.

HAZARD STATEMENTS

May be harmful in contact with skin.
May be harmful if inhaled.
Causes mild skin irritation.
Causes eye irritation.

PRECAUTIONARY STATEMENTS

General:

If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.

Response:

Call a POISON CENTER or doctor/physician if you feel unwell.

IF INHALED: Call a POISON CENTER or doctor/physician if you feel unwell.

if skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

KEEP OUT OF REACH OF CHILDREN WARNING

PRODUCT INFORMATION

INVADE is a combination of a crop-based modified vegetable oil and high quality nonionic surfactants. **INVADE's** select components afford enhanced infiltration of pest control agents that require or recommend the use of an MSO, ESO or MVO. **INVADE** improves diffusion of the active into the target by softening the waxy cuticle, saturate this barrier layer with oil and affording a faster way for the pest control agent to reach plant tissues. **INVADE** increases pesticide control agent performance wherever there is low relative humidity and high temperatures, when weeds are tall or have a thick cuticle or anytime the pest control label calls for an MSO, MVO or other oil-based adjuvant.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Wear eye protection, long sleeved shirt and long pants, shoes plus socks and chemical resistant gloves.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

IF SWALLOWED: Have person sip a glass of water if able to swallow. **DO NOT** induce vomiting unless told to do so by a poison control center or doctor. **DO NOT** give anything by mouth to an unconscious person.

DIRECTIONS FOR USE

If the pest control product calls for or allows the use of an MSO, follow the instructions on the pest control product label. Care should be used on sensitive species as the product could increase sensitivity to light. If the applicator does not have experience with a specific tank mixture and/or the combination of products being used is not recommended by the pest control label, a compatibility (jar) test and a phytotoxicity test should be run before using the product.

If the label allows the use of an MSO but does not recommend a rate, add 1-1/2 to 2 pints per acre of **INVADE** to the spray tank. Extra product may be needed on weeds with heavier wax, or under dry or dusty conditions or for more mature weeds. **NOT FOR AQUATIC USE IN WASHINGTON STATE.**

MIXING

Always follow instructions on the pest control agent label.

If instructions are not provided, follow these general instructions: Fill spray tank 2/3 or 3/4 full of water. Add dry flowables (DF) and wettable powders (WP) disperse thoroughly. Continue the addition of other active ingredients, then adjuvants including **INVADE**, according to the directions on the pesticide label.

NOTE: Tank mixtures including **INVADE** should be utilized within 36 hours for best results.

STORAGE AND DISPOSAL

Store product in original container in a cool, dry place. **DO NOT** add water or anything else to the container. The product may thicken below 40 °F. If this happens, warm above 40 °F and shake to restore to original condition.

DO NOT store near oxidizing agents or extreme heat.

Disposal: Triple rinse container and pour rinsate into spray tank. **DO NOT** reuse container. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org. Dispose of contents/container in accordance with local/national regulations.

WARRANTY

Seller warrants that the product conforms to the chemical description on the label is reasonably fit for the purpose stated on the label when used in accordance with the directions for use under normal conditions. Neither this warranty nor any other warranty or merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label directions, or under abnormal conditions, or under conditions not foreseeable to seller. Buyer assumes risk under any such use insufficient control of pests and/or crop injury may result from unusual environmental conditions, failure to follow pesticide label directions or poor application practices, all of which are beyond the control of INNVICTIS CROP CARE LLC.
