HERBICIDE

Kerb® SC

EPA Reg. No. 62719-578

EPA SLN No. OR-220012

Weed Control in Brassica Leafy and Brassica Head & Stem, Rutabaga, and Swiss Chard Grown for Seed Only

For Distribution and Use Only in the State of Oregon

Expiration Date: This label is valid until December 31, 2027, or until otherwise amended, withdrawn, canceled, or suspended.

Active Ingredient:

pronamide: 3,5-dichloro-N-
(1,1-dimethyl-2-propynyl) benzamide.....35.6%
Other Ingredients64.4%
Total100.0%

Contains 3.3 lbs of active ingredient per gallon.

Keep Out of Reach of Children

CAUTION

Causes Moderate Eye Irritation.

Avoid contact with eyes or clothing.

Environmental Hazards

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Directions for Use

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This Special Local Need (SLN) label and the federally registered label for this product must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, Worker Protection Standard Requirements, and precautions on this SLN label and the main EPA-registered label for Kerb SC, EPA Reg. No. 62719-578.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

General Information

Kerb® SC herbicide is a selective herbicide which may be applied in the fall or winter to the following established crops grown for seed for both preemergence and postemergence control of certain winter annual weeds and grasses:

- **Brassica (Cole) Crop Subgroup 4-16B Leafy subgroup.** (Arugula; Broccoli raab; Chinese broccoli; Chinese cabbage (bok choy); collards; cress; kale; mizuna; mustard greens; mustard spinach; rape greens)
- **Brassica (Cole) Crop Group 5-16 Head & Stem Vegetables.** (Broccoli; Brussels sprouts; cabbage; cabbage, Chinese napa; cauliflower; cultivars and hybrids of these)
- **Rutabaga**
- **Swiss Chard**

Application Rate

Apply on seeded or transplanted crops when crop has 4 or more leaves.

Apply at 2.5 - 5.0 pints Kerb SC (1-2 lb active ingredient) per acre for preemergence or postemergence control of annual bluegrass, annual ryegrass, volunteer grains, pigweed, and chickweed.

Apply Kerb SC postemergence to weeds in the fall to control winter weeds, and/or in the spring for control of spring and summer weeds. Apply no more than 5 pints product (2 lb active ingredient) per acre per crop cycle.

Mixing and Application

Mix the required amount of Kerb SC herbicide in water and apply in a minimum spray volume of 20 gallons per acre. Sprays should be applied to provide uniform distribution without skips or excessive overlapping of the spray pattern.

Kerb SC herbicide acts mainly through root absorption. In order to achieve good weed control, sufficient soil moisture from rain or irrigation is required following treatment to move Kerb SC herbicide into the soil to the weed root zone. Care should be taken to avoid spraying areas that may drain onto areas planted in cool season grasses or small grains.

Specific Use Restrictions

- **Chemigation:** Do not apply this product through any type of irrigation system.
- For use only on crops grown for seed as listed on this label in the state of Oregon.

Special Crop Use Restrictions

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use by the Oregon Department of Agriculture and is regulated by Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown for Seed. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed crop may be used or distributed for food or feed for one year (365 days) after the last application of this product. This restriction pertains to, but is not limited to, green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble, or regrowth. All seed screenings shall be disposed of in such a manner that the screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form, may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal

Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."

Special Conditions and Risks of Use

USE OF KERB SC (THE "PRODUCT") ON BRASSICA LEAFY AND BRASSICA HEAD & STEM VEGETABLES, SWISS CHARD, AND RUTABAGA GROWN FOR SEED (THE "CROP") MAY RESULT IN CROP INJURY, CROP YIELD REDUCTION AND/OR CROP LOSS. READ AND UNDERSTAND THESE SPECIAL CONDITIONS AND RISKS OF USE BEFORE USING THE PRODUCT ON THE CROP.

Corteva Agriscience makes the Product available for use in the manner described in this Special Local Need (SLN) label on the basis that, in the sole opinion of the user, the benefits and utility derived from the use of the Product on the Crop outweigh the potential risk of Crop injury or loss. The decision to use this Product in the manner described in this SLN Labeling must be made by each individual user based on anticipated benefits versus (i) the risk of Crop injury, Crop yield reduction and Crop loss, (ii) the severity of the target pest infestation, (iii) the cost and availability of alternative pest controls, and (iv) any other relevant factors.

By purchasing the Product for use, or using the Product, in the manner described in this SLN Labeling, you acknowledge and accept that:

- (1) You assume all risk of Crop injury, Crop yield reduction and Crop loss.
- (2) Corteva Agriscience does not make and does not authorize any agent or representative to make, any representations or recommendations regarding the use of this Product on the Crop other than the statements on this SLN Labeling.
- (3) Corteva Agriscience does not make and does not authorize any agent or representative to make, any warranties, express or implied, with respect to the use of the Product on the Crop and disclaims all warranties, express or implied, including any implied warranties of fitness for a particular purpose or merchantability.
- (4) Corteva Agriscience disclaims all liability for any damages, losses, expenses, claims or causes of actions arising out of or relating to Crop injury, Crop yield reduction and/or Crop loss.
- (5) These Special Conditions and Risks of Use supersede any contrary representations or recommendations by Corteva Agriscience, its agents or representatives, and any provisions in or on any Product literature or labeling including any provisions on the label affixed to the Product container.

If these Special Conditions and Risks of Use are not acceptable, the unopened Product may be returned to the seller for a refund or used for a different labeled use in accordance with the label affixed to the Product container. These Special Conditions and Risks of Use are required by Corteva Agriscience and not specified by the U.S. EPA or the State of Oregon.
