Instructions for use: Apply 1-2 lb. of Keylamax™ Multimax Organic per acre per application during the crop cycle. Apply at 7 to 14 day intervals according to need. Please consult with your local agronomist or Mil Agro representative for specific recommendations according to crop.

Mixing Instructions: Fill spray tank ¼ to ½ full with water. Be sure agitation system is in working order. Add water conditioner and any compatibility agents if needed. Then add Keylamax™ soluble powder and mix until completely dissolved. Additional products can be added once product is completely dissolved. Add rest of water, agitate and apply.

Warning: Do not mix Keylamax™ Multimax Organic with any copper based fungicide, products containing EDTA or EDTA derivatives or products that tend to have phytotoxic effects.

Caution: This product contains Boron and the use of this product on any crops other than those recommended may result in serious injury to the crop(s).

Caution: This product contains Molybdenum and application of fertilizer may result in forage crops containing levels of Molybdenum which are toxic to ruminant animals.
