| Pests | Application Rate | Special Instructions |
|--|------------------------------|--|
| Lepidoptera Beet Armyworm (suppression) Cabbage Looper (suppression) Diamond Back Moth (suppression) Imported Cabbage Worm (suppression) Western Yellow Stripped Armyworm (suppression) | 5 fl oz/A (0.034 lb ai/A) | Apply Knack® Insect Growth Regulator when target pest(s) are beginning to establish or colonize in the field and/or before recommended threshold populations are observed. Do not wait until worms and/or caterpillar populations have exceeded their established thresholds. Apply by ground and in sufficient volume to obtain thorough coverage. Spray volume will depend on crop's canopy density (Use 20 to 50 GPA). |
