1. PRODUCT IDENTIFICATION

Product identifier on label: **LEDGER Herbicide**

Product No.: A12831A
Use: Herbicide
Manufacturer: Tenkoz, Inc.
1725 Windward Concourse
Alpharetta, GA 30005

Manufacturer Phone: 770-343-8509

Emergency Phone: 1-800-424-9300

2. HAZARDS IDENTIFICATION

Classifications:
- Oral: Category 4
- Specific Target Organ Toxicity: Repeated Category 2
- Eye Damage/Irritation: Category 2A
- Specific Target Organ Toxicity: Respiratory Irritation Category 3
- Aspiration Hazard: Category 1
- Carcinogenicity: Category 1B

Signal Word (OSHA): **Danger**

Hazard Statements:
- May be fatal if swallowed and enters airways
- Causes serious eye irritation
- May cause respiratory irritation
- May cause cancer
- May cause damage to organs through prolonged or repeated exposure

Precautionary Statements:
- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Do not breathe mist, vapors, spray.
- Wash hands and face thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Use only outdoors or in a well-ventilated area.
- Wear protective gloves, protective clothing, eye protection.
- If swallowed: Immediately call a poison center, doctor or Syngenta. Rinse mouth.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If exposed or concerned: Get medical advice/attention.
Call a poison center, doctor or Syngenta if you feel unwell.
Do NOT induce vomiting.
If eye irritation persists: Get medical advice.
Store locked up.
Dispose of contents and container in accordance with local regulations.

Other Hazard Statements: None

Ingredients not precisely identified are proprietary or non-hazardous. Values are not product specifications.

4. FIRST AID MEASURES

Have the product container, label or Safety Data Sheet with you when calling a poison control center or doctor, or going for treatment.

Ingestion: If swallowed: Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so after calling 800-424-9300 or by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Eye Contact: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin Contact: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Inhalation: If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Most important symptoms/effects:

Eye irritation
Respiratory irritation
5. FIRE FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media:
Use dry chemical, foam or CO2 extinguishing media. If water is used to fight fire, dike and collect runoff.

Specific Hazards:
Combustible liquid. Can release vapors that form explosive mixtures at temperatures at or above the flash point. Heavy vapors can flow along surfaces to distant ignition sources and flash back.

During a fire, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.

Wear full protective clothing and self-contained breathing apparatus. Evacuate nonessential personnel from the area to prevent human exposure to fire, smoke, fumes or products of combustion.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures:
Follow exposure controls/personal protection outlined in Section 8.

Methods and materials for containment and cleaning up:
Control the spill at its source. Contain the spill to prevent from spreading or contaminating soil or from entering sewage and drainage systems or any body of water. Clean up spills immediately, observing precautions outlined in Section 8. Cover entire spill with absorbing material and place into compatible disposal container. Scrub area with hard water detergent (e.g. commercial products such as Tide, Joy, Spic and Span). Pick up wash liquid with additional absorbent and place into compatible disposal container. Once all material is cleaned up and placed in a disposal container, seal container and arrange for disposition.

7. HANDLING AND STORAGE

Precautions for safe handling:
Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco products in the storage area. Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

Conditions for safe storage, including any incompatibilities:
Store locked up.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION AND PACKAGING OF THIS PRODUCT.

FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL.

<table>

</tbody>
</table>
Appropriate engineering controls:
Use effective engineering controls to comply with occupational exposure limits (if applicable).

Individual protection measures:

Ingestion:
Prevent eating, drinking, tobacco usage and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

Eye Contact:
Where eye contact is likely, use chemical splash goggles. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

Skin Contact:
Where contact is likely, wear chemical-resistant gloves (such as barrier laminate, butyl rubber, nitrile rubber or Viton), coveralls, socks and chemical-resistant footwear.

Inhalation:
A respirator is not normally required when handling this substance. Use effective engineering controls to comply with occupational exposure limits.

In case of emergency spills, use a NIOSH approved respirator with any R, P or HE filter.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Transparent amber liquid
Odor: Aromatic sulfur-like
pH: 3 - 5 (1% solution in H2O @ 77°F (25°C))
Melting point/freezing point: Not Applicable
Initial boiling point and boiling range: Not Available
Flash Point (Test Method): 188°F
Flammable Limits (% in Air): Not Available
Flammability: Combustible liquid

Vapor Pressure: Metribuzin 1.2 x 10(-7) mmHg @ 68°F (20°C)
S-Metolachlor 2.8 x 10(-5) mmHg @ 77°F (25°C)

Vapor Density: Not Available
Relative Density: 1.08 g/ml ; 9.01 lbs/gal @ 68°F (20°C)
Solubility (ies): Metribuzin 1050 ppm @ 68°F (20°C)
S-Metolachlor 0.48 g/l @ 77°F (25°C)

Partition coefficient: n-octanol/water: Not Available

- Autoignition Temperature: Not Available
- Decomposition Temperature: Not Available
- Viscosity: Not Available
- Other: None

**10. STABILITY AND REACTIVITY**

- Reactivity: Not reactive.
- Chemical stability: Stable under normal use and storage conditions.
- Possibility of hazardous reactions: Will not occur.
- Conditions to Avoid: None known.
- Incompatible materials: None known.
- Hazardous Decomposition Products: None known.

**11. TOXICOLOGICAL INFORMATION**

**Health effects information**

- Likely routes of exposure: Dermal, Inhalation
- Symptoms of exposure: Eye irritation, Respiratory irritation
- Delayed, immediate and chronic effects of exposure: Possible carcinogenicity, Eye irritation, Respiratory system effects

**Numerical measures of toxicity (acute toxicity/irritation studies (finished product))**

- **Ingestion:** Oral (LD50 Rat): 1805 mg/kg body weight
- **Dermal:** Dermal (LD50 Rat): > 5000 mg/kg body weight
- **Inhalation:** Inhalation (LC50 Rat): > 2.53 mg/l air - 4 hours
- **Eye Contact:** Moderately Irritating (Rabbit)
- **Skin Contact:** Slightly Irritating (Rabbit)
- **Skin Sensitization:** Not a Sensitizer (Guinea Pig)

**Reproductive/Developmental Effects**

- **Metribuzin:** Reproductive toxicity shown in a two-generation study in rats only at dose levels toxic to the parent animals. This reproductive toxicity is related to parental toxicity. Developmental effects seen only at dose levels toxic to the dams. The developmental effects seen are related to maternal toxicity.
- **S-Metolachlor:** Did not show reproductive effects in animal experiments.

**Chronic/Subchronic Toxicity Studies**

- **Metribuzin:** Dog and rat feeding studies showed decreases in body weight and food consumption, anemia, liver effects, kidney effects, testicular effects and mortality. A dermal toxicity study in rabbits showed effects on cholesterol levels and liver function. A rat inhalation study showed behavioral changes, decreased body weight gains, liver enzyme induction and organ weight effects.
Neurotoxicity: Animal studies showed evidence of transient neurobehavioral effects after single oral dosing at 5 mg/kg and above. Other screening studies showed no evidence of neurotoxicity at dietary concentrations up to 900 ppm.

S-Metolachlor: No adverse effect has been observed in chronic toxicity tests.

Carcinogenicity

Metribuzin: Metribuzin was investigated for carcinogenicity in chronic feeding studies using rats and mice at maximum levels of 900 and 3200 ppm, respectively. There was no evidence of a carcinogenic potential observed in either species.

S-Metolachlor: Did not show carcinogenic effects in animal experiments.

Other Toxicity Information

None

Toxicity of Other Components

1,2,4-Trimethylbenzene

Inhalation of 1,2,4-trimethylbenzene at high concentrations can cause central nervous system depression, respiratory tract irritation, asphyxiation, cardiac stress and coma. Effects of chronic exposure to this solvent can include blood disorders (anemia, leukopenia) and kidney or liver damage.

Naphthalene

Exposure to naphthalene can cause cataracts, liver damage, kidney failure, respiratory failure, hematuria, anemia, damage to red blood cells, leukocytosis, or coma.

Carcinogen Status:

NTP: Anticipated Carcinogen

IARC: Group 2B Possible Human Carcinogen

Other ingredients

Not Applicable

Petroleum Solvent

Repeated exposure may cause skin dryness or cracking. If swallowed, may be aspirated and cause lung damage. May be irritating to the eyes, nose, throat and lungs. Breathing of high vapor concentrations may cause central nervous system (CNS) depression resulting in dizziness, light-headedness, headache, nausea and loss of coordination.

Target Organs

Active Ingredients

Metribuzin: Liver, kidney, thyroid, testes

S-Metolachlor: Liver

Inert Ingredients

1,2,4-Trimethylbenzene: CNS, liver, kidney, blood, respiratory tract, skin, eye

Naphthalene: Eye, liver, kidney, respiratory tract, blood, CNS

Other ingredients: Not Applicable

Petroleum Solvent: Respiratory tract, stomach, liver, thyroid, urinary bladder, CNS, skin
12. ECOLOGICAL INFORMATION

Eco-Acute Toxicity

S-Metolachlor:
- Fish (Rainbow Trout) 96-hour LC50 1.23 mg/l
- Green Algae 96-hour ErC50 0.077 mg/l
- Invertebrate (Water Flea) 48-hour EC50 11.24 mg/l

Metribuzin:
- Fish (Rainbow Trout) 96-hour LC50 42 ppm
- Invertebrate (Water Flea) Daphnia Magna 48-hour EC50 4.18 ppm
- Bird (Bobwhite Quail) 21-day LD50 164 mg/kg
- Green Algae 6-day EC50 20.8 ppb

Environmental Fate

Metribuzin:
- The information presented below is for the active ingredient, metribuzin.

S-Metolachlor:
- The information presented here is for the active ingredient, S-Metolachlor.

13. DISPOSAL CONSIDERATIONS

Disposal:
Do not reuse product containers. Dispose of product containers, waste containers, and residues according to local, state, and federal health and environmental regulations.

Characteristic Waste: Not Applicable
Listed Waste: Not Applicable

14. TRANSPORT INFORMATION

DOT Classification
- Ground Transport - NAFTA
- Packages <= 119 gal. Not regulated
- Packages > 119 gal.
- Proper Shipping Name: Compounds, Weed Killing, Liquid, (Naphthalene)
- Hazard Class: Combustible Liquid
- Identification Number: NA 1993
- Packing Group: PG III

Comments
- Water Transport - International
- Proper Shipping Name: Environmentally Hazardous Substance, Liquid, N.O.S. (s-Metolachlor/Naphthalene), Marine Pollutant
- Hazard Class: Class 9
- Identification Number: UN 3082
- Packing Group: PG III

Air Transport
- Proper Shipping Name: Environmentally Hazardous Substance, Liquid, N.O.S. (s-Metolachlor/Naphthalene)
15. REGULATORY INFORMATION

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

Caution: Keep out of reach of children.

EPA Registration Number(s):
100-1162-55467

EPCRA SARA Title III Classification:
Section 311/312 Hazard Classes: Acute Health Hazard Fire Hazard
Section 313 Toxic Chemicals:
Metribuzin 13.8% (CAS No. 21087-64-9)
1,2,4-Trimethylbenzene <5.0% (CAS No. 95-63-6)
Naphthalene <5.0% (CAS No. 91-20-3)

CERCLA/SARA 304 Reportable Quantity (RQ):
Report product spills > 750 gal (based on naphthalene [RQ = 100 lbs.] content in the formulation) (CERCLA)

RCRA Hazardous Waste Classification (40 CFR 261):
Not Applicable

TSCA Status:
Exempt from TSCA, subject to FIFRA
