## Limus Pro

Revision date : 2020/01/08  
Version: 4.0

Page: 1/12  
(30710485/SDS\_GEN\_US/EN)

### 1. Identification

#### Product identifier used on the label

**Limus Pro**

#### Recommended use of the chemical and restriction on use

Recommended use\*: fertilizers

Recommended use\*: Micronutrient; fertilizers; For commercial use only.

Unsuitable for use: consumer

\* The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

#### Details of the supplier of the safety data sheet

Company:

BASF CORPORATION  
100 Park Avenue  
Florham Park, NJ 07932, USA

Telephone: +1 973 245-6000

#### Emergency telephone number

CHEMTREC: 1-800-424-9300  
BASF HOTLINE: 1-800-832-HELP (4357)

#### Other means of identification

---

### 2. Hazards Identification

**According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200**

#### Classification of the product

Skin Corr./Irrit.	2	Skin corrosion/irritation
Eye Dam./Irrit.	2A	Serious eye damage/eye irritation
Skin Sens.	1	Skin sensitization
Repr.	2 (fertility)	Reproductive toxicity
Aquatic Acute	3	Hazardous to the aquatic environment - acute
Aquatic Chronic	3	Hazardous to the aquatic environment - chronic

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08

Version: 4.0

Page: 2/12

(30710485/SDS\_GEN\_US/EN)

### Label elements

Pictogram:

Signal Word:

Warning

Hazard Statement:

H319	Causes serious eye irritation.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H361	Suspected of damaging fertility.
H402	Harmful to aquatic life.
H412	Harmful to aquatic life with long lasting effects.

Precautionary Statements (Prevention):

P280	Wear protective gloves, protective clothing and eye protection or face protection.
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.
P280	Wear eye protection.
P273	Avoid release to the environment.
P201	Obtain special instructions before use.
P202	Do not handle until all safety precautions have been read and understood.
P272	Contaminated work clothing should not be allowed out of the workplace.
P264	Wash contaminated body parts thoroughly after handling.

Precautionary Statements (Response):

P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P303 + P361	IF ON SKIN (or hair): Wash with plenty of soap and water.
P308 + P311	IF exposed or concerned: Call a POISON CENTER or doctor/physician.
P332 + P313	If skin irritation occurs: Get medical advice/attention.
P362 + P364	Take off contaminated clothing and wash it before reuse.
P337 + P311	If eye irritation persists: Call a POISON CENTER or doctor/physician.

Precautionary Statements (Storage):

P405	Store locked up.
------	------------------

Precautionary Statements (Disposal):

P501	Dispose of contents and container to hazardous or special waste collection point.
------	---

---

### 3. Composition / Information on Ingredients

#### According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

N-butylphosphorothioic triamide (NBPT)

CAS Number: 94317-64-3

Content (W/W): 15.0 - 20.0%

Synonym: No data available.

N-propylphosphorothioic triamide (NPPT)

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08

Version: 4.0

Page: 3/12

(30710485/SDS\_GEN\_US/EN)

CAS Number: 916809-14-8  
Content (W/W): 5.0 - 10.0%  
Synonym: No data available.

Polyethyleneimine

CAS Number: 25987-06-8  
Content (W/W): 5.0 - 10.0%  
Synonym: LUPASOL PR 8515

---

## 4. First-Aid Measures

### Description of first aid measures

#### General advice:

Remove contaminated clothing.

#### If inhaled:

Keep patient calm, remove to fresh air, seek medical attention.

#### If on skin:

Wash thoroughly with soap and water.

#### If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

#### If swallowed:

Immediately rinse mouth and then drink 200-300 ml of water, seek medical attention.

### Most important symptoms and effects, both acute and delayed

Symptoms: Information, i.e. additional information on symptoms and effects may be included in the GHS labeling phrases available in Section 2 and in the Toxicological assessments available in Section 11., (Further) symptoms and / or effects are not known so far

Hazards: Risk of decrease in cholinesterase activity. If poisoning is probable, treat the patient immediately. Treatment should be given simultaneously with decontamination procedures in severe cases. Proceed concurrently with decontamination using proper protective gear; for example, chemical resistant gloves (neoprene or nitrile) rather than cotton or leather gloves.

### Indication of any immediate medical attention and special treatment needed

#### Note to physician

Antidote:

Administer atropine. Pralidoxime or obidoxime may be effective as an adjunct to atropine. Before administering pralidoxime or obidoxime, obtain a blood sample for cholinesterase analysis.

Treatment:

Treat according to symptoms (decontamination, vital function), administer atropine for cholinesterasis inhibition. Avoid opiates, parasympthomimetic agents (e.g. succinylcholine), theophylline, reserpine and or phenothiazines. The dosage for atropine is as follows: 1 to 2 mg/kg initially IV in adults (or 0.05 mg/kg in children under 12 years) then give appropriate doses every 15 minutes until excessive secretions and sweating have been controlled. Tissue oxygenation should be improved as much as possible before administering atropine, so as to minimize the risk of arrhythmia. Pralidoxime or obidoxime may be effective as an adjunct to atropine. Before administering pralidoxime

# Safety Data Sheet

## Limus Pro

Version: 4.0

Page: 4/12

(30710485/SDS\_GEN\_US/EN)

or obidoxime, obtain a blood sample for cholinesterase analysis. Use soap (preferably Tincture Green Soap) and water or dilute hypochlorite solution for decontaminating skin. Suction oral secretions and emesis to avoid aspiration. Artificial respiration or oxygen administration may be necessary. Observe patient continuously for at least 72 hours. Allow no further exposure to any cholinesterase inhibitor until cholinesterase regeneration has taken place as determined by blood tests.

---

## 5. Fire-Fighting Measures

### Extinguishing media

Suitable extinguishing media:  
water spray, dry powder, foam, carbon dioxide

### Special hazards arising from the substance or mixture

Hazards during fire-fighting:

carbon monoxide, ammonia, carbon dioxide, hydrogen sulphide, Phosphine, nitrogen oxides, nitrous gases, sulfur oxides

The substances/groups of substances mentioned can be released in case of fire.

### Advice for fire-fighters

Protective equipment for fire-fighting:

Wear self-contained breathing apparatus and chemical-protective clothing.

### Further information:

Keep containers cool by spraying with water if exposed to fire. In case of fire and/or explosion do not breathe fumes. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

---

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Do not breathe vapour/spray. Use personal protective clothing. Avoid contact with the skin, eyes and clothing.

### Environmental precautions

Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater.

### Methods and material for containment and cleaning up

For small amounts: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr).

For large amounts: Dike spillage. Pump off product.

Dispose of absorbed material in accordance with regulations. Collect waste in suitable containers, which can be labeled and sealed. Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations. Wear suitable protective equipment.

---

## 7. Handling and Storage

### Precautions for safe handling

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08

Version: 4.0

Page: 5/12

(30710485/SDS\_GEN\_US/EN)

No special measures necessary if stored and handled correctly. Ensure thorough ventilation of stores and work areas. When using do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift.

Protection against fire and explosion:

Vapours may form ignitable mixture with air. Prevent electrostatic charge - sources of ignition should be kept well clear - fire extinguishers should be kept handy.

### Conditions for safe storage, including any incompatibilities

Segregate from foods and animal feeds.

Further information on storage conditions: Keep away from heat. Protect from direct sunlight.

Protect from temperatures below: -10 °C

Changes in the properties of the product may occur if substance/product is stored below indicated temperature for extended periods of time.

Protect from temperatures above: 40 °C

Changes in the properties of the product may occur if substance/product is stored above indicated temperature for extended periods of time.

## 8. Exposure Controls/Personal Protection

No occupational exposure limits known.

### Personal protective equipment

#### **Respiratory protection:**

Wear a NIOSH-certified (or equivalent) organic vapour/particulate respirator as needed.

#### **Hand protection:**

Wear impermeable chemical resistant protective gloves.

#### **Eye protection:**

Safety glasses with side-shields. Wear face shield if splashing hazard exists.

#### **Body protection:**

Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.

#### **General safety and hygiene measures:**

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended. Store work clothing separately. Keep away from food, drink and animal feeding stuffs.

## 9. Physical and Chemical Properties

Form:	liquid
Odour:	moderate odour, ammonia-like
Odour threshold:	Not determined due to potential health hazard by inhalation.
Colour:	orange clear
pH value:	approx. 9.4 - 11.4 ( 1 %(m), 20 °C)
Melting point:	The product has not been tested.
Boiling point:	approx. 167 °C

(OECD Guideline  
103)

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08

Page: 6/12

Version: 4.0

(30710485/SDS\_GEN\_US/EN)

Flash point:	103 °C	(Directive 92/69/EEC, A.9)
Flammability:	Based on the structure or composition there is no indication of flammability	
Lower explosion limit:	As a result of our experience with this product and our knowledge of its composition we do not expect any hazard as long as the product is used appropriately and in accordance with the intended use.	
Upper explosion limit:	As a result of our experience with this product and our knowledge of its composition we do not expect any hazard as long as the product is used appropriately and in accordance with the intended use.	
Autoignition:	275 °C	(Regulation 440/2008/EC, A.15)
SADT:	> 75 °C	
Vapour pressure:	approx. 0.2 hPa ( 25 °C)	
Density:	Information applies to the solvent. approx. 1.09 g/cm3 ( 20 °C)	(Directive 92/69/EEC, A.3)
Vapour density:	not applicable	
<i>Information on: N-propylphosphorothioic triamide (NPPT)</i>		
Partitioning coefficient n-octanol/water (log Pow):	< 0.3 ( 24 °C)	(OECD Guideline 117)
<i>Information on: Phosphorothioic triamide, N-butyl-</i>		
Partitioning coefficient n-octanol/water (log Pow):	-0.32 ( 25 °C)	
-----		
Thermal decomposition:	150 °C, 640 kJ/kg (DSC (OECD 113)) (onset temperature) Not a substance liable to self-decomposition according to UN transport regulations, class 4.1.	
Viscosity, dynamic:	approx. 51 mPa.s ( 20 °C)	
Solubility in water:	mainly soluble	
Evaporation rate:	not applicable	
Other Information:	If necessary, information on other physical and chemical parameters is indicated in this section.	

## 10. Stability and Reactivity

### Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

Oxidizing properties:

not fire-propagating (UN Test O.2 (oxidizing liquids))

### Chemical stability

The product is stable if stored and handled as prescribed/indicated.

### Possibility of hazardous reactions

No hazardous reactions if stored and handled as prescribed/indicated.

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08  
Version: 4.0

Page: 7/12  
(30710485/SDS\_GEN\_US/EN)

### Conditions to avoid

See SDS section 7 - Handling and storage.

### Incompatible materials

strong acids, strong bases, strong oxidizing agents

### Hazardous decomposition products

Decomposition products:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

Thermal decomposition:

150 °C, 3 K/min (DSC (OECD 113))  
(onset temperature)

Not a substance liable to self-decomposition according to UN transport regulations, class 4.1.

---

## 11. Toxicological information

### Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

### Acute Toxicity/Effects

#### Acute toxicity

Assessment of acute toxicity: The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Virtually nontoxic after a single ingestion. Virtually nontoxic by inhalation. Virtually nontoxic after a single skin contact.

#### Oral

Species: rat (female)

Value: > 2,000 mg/kg (OECD Guideline 423)

No mortality was observed.

#### Dermal

Species: rat (male/female)

Value: > 5,000 mg/kg (OECD Guideline 402)

No mortality was observed.

#### Assessment other acute effects

Assessment of STOT single:

Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

The product has not been tested. The statement has been derived from the properties of the individual components.

#### Irritation / corrosion

Assessment of irritating effects: The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Eye contact causes irritation. Skin contact causes irritation.

#### Skin

Species: rabbit

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08

Version: 4.0

Page: 8/12

(30710485/SDS\_GEN\_US/EN)

Result: Irritant.

### Eye

Species: rabbit

Result: Irritant.

### Sensitization

Assessment of sensitization: The product has not been tested. The statement has been derived from the properties of the individual components. Sensitization after skin contact possible.

*Information on: N-butylphosphorothioic triamide (NBPT)*

*Assessment of sensitization:*

*After continuous contact with the skin, sensitization cannot be excluded.*

*Information on: N-propylphosphorothioic triamide (NPPT)*

*Mouse Local Lymph Node Assay (LLNA)*

*Species: mouse*

*Result: Non-sensitizing.*

*Method: OECD Guideline 429*

*Analogous: Assessment derived from products with similar chemical character.*

*The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.*

### Aspiration Hazard

The product has not been tested. The statement has been derived from the properties of the individual components. No aspiration hazard expected.

## **Chronic Toxicity/Effects**

### Repeated dose toxicity

Assessment of repeated dose toxicity: The product has not been tested. The statement has been derived from the properties of the individual components.

*Information on: N-butylphosphorothioic triamide (NBPT)*

*Assessment of repeated dose toxicity: The substance may cause damage to the liver after repeated ingestion of high doses, as shown in animal studies. The substance may cause damage to the kidney after repeated ingestion of high doses, as shown in animal studies.*

### Genetic toxicity

Assessment of mutagenicity: The product has not been tested. The statement has been derived from the properties of the individual components. Mutagenicity tests revealed no genotoxic potential.

### Carcinogenicity

Assessment of carcinogenicity: The product has not been tested. The statement has been derived from the properties of the individual components. The results of various animal studies gave no indication of a carcinogenic effect.

### Reproductive toxicity

Assessment of reproduction toxicity: The product has not been tested. The statement has been derived from the properties of the individual components.

*Information on: N-butylphosphorothioic triamide (NBPT)*

*Assessment of reproduction toxicity: The results of animal studies suggest a fertility impairing effect.*

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08

Version: 4.0

Page: 9/12

(30710485/SDS\_GEN\_US/EN)

### Teratogenicity

Assessment of teratogenicity: The product has not been tested. The statement has been derived from the properties of the individual components. Animal studies gave no indication of a developmental toxic effect at doses that were not toxic to the parental animals.

### Other Information

Misuse can be harmful to health.

---

## 12. Ecological Information

### **Toxicity**

#### Aquatic toxicity

Assessment of aquatic toxicity:

Harmful to aquatic life with long lasting effects.

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

#### Aquatic invertebrates

EC50 (48 h) 60.2 mg/l, Daphnia magna

#### Toxicity to fish

*Information on: Polyethyleneimine*

*LC50 (96 h) > 10 - 100 mg/l, Leuciscus idus (OECD Guideline 203)*

### **Persistence and degradability**

#### Assessment biodegradation and elimination (H2O)

The product has not been tested. The statement has been derived from the properties of the individual components.

#### Assessment biodegradation and elimination (H2O)

*Information on: N-butylphosphorothioic triamide (NBPT)*

*Not readily biodegradable (by OECD criteria).*

*Information on: N-propylphosphorothioic triamide (NPPT)*

*Not readily biodegradable (by OECD criteria).*

*Information on: Polyethyleneimine*

*Not readily biodegradable (by OECD criteria).*

### **Bioaccumulative potential**

#### Assessment bioaccumulation potential

The product has not been tested. The statement has been derived from the properties of the individual components.

#### Assessment bioaccumulation potential

# Safety Data Sheet

## Limus Pro

Revision date : 2020/01/08

Version: 4.0

Page: 10/12

(30710485/SDS\_GEN\_US/EN)

*Information on: N-butylphosphorothioic triamide (NBPT)*

*Because of the n-octanol/water distribution coefficient (log Pow) accumulation in organisms is not to be expected.*

*Information on: N-propylphosphorothioic triamide (NPPT)*

*Because of the n-octanol/water distribution coefficient (log Pow) accumulation in organisms is not to be expected.*

### Mobility in soil

#### Assessment transport between environmental compartments

The product has not been tested. The statement has been derived from the properties of the individual components.

*Information on: N-butylphosphorothioic triamide (NBPT)*

*The substance will slowly evaporate into the atmosphere from the water surface.  
Adsorption to solid soil phase is not expected.*

*Information on: N-propylphosphorothioic triamide (NPPT)*

*The substance will not evaporate into the atmosphere from the water surface.  
Adsorption to solid soil phase is not expected.*

### Additional information

Other ecotoxicological advice:

Do not discharge product into the environment without control.

---

## 13. Disposal considerations

### Waste disposal of substance:

Must be disposed of or incinerated in accordance with local regulations.

### Container disposal:

Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product.

RCRA: D007

---

D010

The waste codes are manufacturer's recommendations based on the designated use of the product. Other use and special waste disposal treatment on customer's location may require different waste-code assignments.

---
