Lorsban[®]-4E

EPA Reg. No. 62719-220

Special 2(ee) Recommendation[†]

(For Distribution and Use Only Within the State of Oregon)

Control of Seed Maggots on Snap Bean

ATTENTION

[†]This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container for Lorsban[®]-4E insecticide before applying. Carefully follow all precautionary statements and applicable use directions except as specified below.
- Use of Lorsban-4E according to this Section 2(ee) recommendation is subject to all use precautions and limitations imposed by the label affixed to the container for Lorsban-4E.

Directions for Use

Refer to product label for Lorsban-4E for Use Precautions and Restrictions, and Application and Mixing directions.

Apply Lorsban-4E to legume vegetables (succulent or dried) (except soybean), including snap bean, as a preplant broadcast or at plant T-band application to control seed maggots.

Read the label affixed to the container for Lorsban-4E and follow all use directions and restrictions for legume vegetables.
