MSO

METHYLATED SEED OIL

PRINCIPAL FUNCTIONING AGENTS

Methylated seed oil and Surfactant blend.....100%

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.

FIRST AID

If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Have person sip a glass of water. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably by mouth-to-mouth, if possible. Always call a poison control center or doctor for treatment advice.

If In Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical advice/attention.

If On Skin Or Clothing: Wash with plenty of soap and water. If skin irritation occurs, get medical advice/attention. Take off contaminated clothing and wash before reuse.

GENERAL INFORMATION

MSO is a unique blend of highly refined and modified spray oil and superior nonionic surfactants. MSO's chemistry allows for superior wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve coverage.

The addition of MSO to a spray tank solution will improve a spray application by physically modifying the deposition and wetting characteristics of the spray solution, the result being a more uniform spray deposit.

The use of MSO can increase pesticidal activity where the following factors occur, but is not limited to: 1) When used in areas of the country with low relative humidity and high temperatures, 2) When target species are larger than label recommendations at time of application.

NOTE

The application rates on this label are based on pesticide labels which recommend the use of a methylated seed oil or nonionic surfactant. Use the rate recommended on the pesticide label. A compatibility test is recommended prior to use. Always read and follow all label directions of the herbicide being applied.

KEEP OUT OF REACH OF CHILDREN WARNING

HAZARD STATEMENTS

Causes eye irritation. Causes mild skin irritation.

PRECAUTIONARY STATEMENTS

Wash thoroughly after handling. Wear protective gloves and eyeface protection. Avoid breathing fumes/mist/vapors/spray. IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical advice/attention. IF ON SKIN OR CLOTHING: Wash with plenty of soap and water. If skin irritation occurs, get medical advice/attention. Take off contaminated clothing and wash before reuse.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Store at ambient temperature. Store in a closed container. Store in a well-ventilated place. Keep cool. Keep container tightly closed and DO NOT allow water to be introduced to contents of this container. DO NOT reuse this container.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple pressure rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit: www.acrcycle.org. Dispose of containers/containers in accordance with local/national regulations.

ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning of equipment or disposal of wastewater.

MSO is Manufactured for Aspect Ag, LLC

NET CONTENTS

2.5 GALLON

DIRECTIONS FOR USE

This herbicide label will recommend the use of a modified vegetable oil and provide specific use rates, mixing and application instructions, and any additional precautionary statements. Typical use rates for MSO are 1.5 to 2.0 gallons. The 2.0 pint/acre rate may be required if weed populations are extreme or if plants are stressed at the time of treatment, unless pesticide label instructs otherwise. Always add MSO last to the spray mixture after herbicides have been added and agitated. Higher rates may be required on hard to control weeds or weeds which are under stress.

MIXING

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming, fill spray tank 2/3 full of water. If foaming is anticipated, an antifoaming agent should be added before pesticides, nutrients, or MSO, unless pesticide label instructs otherwise. Add pesticides and/or fertilizers as directed by label or in the following sequence: 1) Micronutrients and fertilizers, 2) Dry flowables and dispersible granules, 3) Flowables, 4) Water soluble pesticides, 5) Emulsifiable concentrates. Continue agitation and add MSO. After the addition of MSO, reduce agitation and allow to mix for 1 to 2 minutes. Continue filling tank while under minimal agitation. NOTE: For optimum results, spray mixes containing MSO should be applied within 36 hours.

NOTICE-READ CAREFULLY*

TERMS AND CONDITIONS OF SALE: Buyer's and user's receipt of any goods delivered hereunder shall be an unqualified acceptance of and a waiver by buyer and user of any and all claims with respect to such goods unless buyer or user gives seller notice of claim within fifteen (15) days after such receipt. Buyer shall be liable for any shortages of goods delivered hereunder, unless buyer gives seller notice of such shortages of goods within twenty-four (24) hours from receipt of shipment of buyer. Buyer or user assumes all risk and liability from the risks associated with the use of any product distributed, sold, or manufactured by producer or distributor or end user. Seller nor manufacturer shall be liable for damage or loss of any kind, whether as to goods delivered or for non-delivery of goods except specifically provided herein.

LIMITATION OF LIABILITY: In event that seller be liable for special, incidental, or consequential damages, or for damages in their nature of penalties resulting in the goods sold. Seller shall not be liable to buyer or user by way of indemnification to customers of buyer, if any, or for any damages or sums of money, claims or demands whatsoever, resulting therefrom or by reason of, or being out of the nature, or failure to follow label warnings or instructions for use, of the goods sold by seller. Buyer's or user's exclusive remedy, and seller's total liability shall be for damages not exceeding the cost of the product.

WARRANTY DISCLAIMER: The goods sold to you by this agreement are furnished "as is" by seller, and are subject only to the manufacturer's warranties, if any, which appear on the labels of the products. Seller, makes no other warranties, guarantees or representations, either written or oral, to buyer or user, either express or implied, or by operation of law, relating to or otherwise, with regard to the products sold, including but not limited to merchantability, fitness for a particular purpose, use or eligibility of the products for particular needs, safe efficiencies, or other unanticipated consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of seller.
