

# MAGISTRATE

For control of tar spot in field corn, field corn grown for seed and popcorn

EPA Reg. No. 34704-1114

FIFRA 2(ee) Recommendation

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATES OF ILLINOIS, INDIANA, IOWA, MINNESOTA, MICHIGAN, OHIO, AND WISCONSIN

**FIFRA Section 2(ee) Recommendation:** This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA or state lead pesticide agency. This recommendation should be in the possession of the user at the time of application of the product. All applicable directions, restriction and precautions on the EPA registered label are to be followed.

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its label.

CORN (Field Corn, Field Corn Grown for Seed and Popcorn)		
Disease Controlled	Rate fl oz/acre	Product Instructions
Tar spot ( <i>Phyllachora maydis</i> )	6.5 to 8.0 (0.047 to 0.058 lbs azoxystrobin/A)	Apply Magistrate when disease first appears and continue on a 7- to 14-day interval if conditions for disease development persist.
	(0.061 to 0.075 lbs prothioconazole/A)	Use the higher rates and shorter intervals when disease pressure is severe.
	(0.047 to 0.058 lbs trifloxystrobin/A)	The inclusion of an adjuvant such as Franchise or Liberate in the spray tank for applications made through tasseling (VT) is recommended.
<b>Application Restrictions:</b> Pre-Harvest Interval (PHI): 30 day(s) for grain and fodder  Application of Magistrate is not recommended at times when corn is under severe environmental stress conditions.  Do not apply more than 16.0 fl oz of Magistrate (0.150 lbs prothioconazole, 0.116 lbs trifloxystrobin, 0.117 lbs azoxystrobin) per acre per year.  Do not use adjuvants in sprays made between V8 (8 leaf collar) and VT (lowest branch of the tassel is visible but the silks have not yet emerged).  Magistrate may be applied by ground, air, or chemigation.  To limit the potential for development of disease resistance to this fungicide, do not make more than 2 sequential applications of Magistrate or any Group 11 containing fungicide before rotating with a fungicide from a different Group.
