

Section 2(ee) Recommendation

Date: April 25, 2014
Product: Medal® II EC
EPA Reg. No. 100-818
Use: Use of lower rates in field corn on coarse textured soils
State: Texas

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply Medal II EC at 0.67-1.0 pt/A alone or as a tank mix when all of the following criteria are met: 1) when applied to coarse textured soils as defined on the Section 3 federal label. 2) when applied using the following methods of application: preplant surface, preplant incorporated, or preemergence. 3) when used in a two-pass (preemergence followed by postemergence application) weed control program consistent with the federal Section 3 label.

Do not exceed the maximum seasonal S-metolachlor rate for corn, 3.9 pt/A (3.72 lb ai/A).

The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.

The user should have this recommendation in its possession at the time of use.

This recommendation for use of Medal II EC is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.
