## GUARANTEED ANALYSIS

Zinc (Zn):.....9%

Derived from zinc chloride complexed with sodium gluconate.

Contains EDTA chelating agent

## GENERAL INFORMATION

**MICRO- PLUS** Complexed Micronutrients are for soil and foliar application. They are readily available and rapidly absorbed by the root system or foliage.

**MICRO- PLUS** Complexed Micronutrients are formulated to be used in Stoller liquid fertilizers (NITRO- PLUS, URA- CAL, FOLIZYME) and Nitrogen solutions. When used with polyphosphate containing fertilizers, dilute with nitrogen solution before addition. Broadcast or row applications are acceptable, although greater efficiency may be expected from row applications. Micronutrient deficiencies usually occur when plants are small; therefore, micronutrients should be added to the fertilizer at or before planting.

## STORAGE INSTRUCTIONS

**MICRO- PLUS** Micronutrients are products with medium corrosivity. It is recommended that **MICRO- PLUS** Complexed Micronutrients (10% Zn, 5% Fe, 5% Mn, 5% Cu) be stored in fiberglass, polyethylene or polyolefin. We recommend storing pails a maximum of three pails high. Do not stack pallets.

## APPLICATION INSTRUCTIONS

Soil application of **MICRO- PLUS ZINC** can be incorporated in liquid fertilizer or applied separately. **MICRO- PLUS ZINC** can be coated on dry blend fertilizer to control dust in the blend plant and supply needed micronutrients. Contact Stoller Enterprises, Inc. to receive the necessary equipment and operating instructions.

*Apply the following rated if you do not have a solid or leaf analysis:*

Maintenance Application:	1 quart per acre.
Moderate Micronutrient Deficiency:	0.5 to 1 gallon per acre.
Heavy Micronutrient Deficiency:	1 to 2 gallons per acre.

## APPLICATION INSTRUCTIONS

**WARNING:** Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat and/ or skin. Avoid contact with eyes, skin and clothing. IF SWALLOWED: Induce vomiting by sticking finger down throat. Never give anything to an unconscious person. Get medical attention. IF IN EYES: Wash eyes with plenty of clear water for at least 15 minutes. Get medical attention.
