

## ACTION

**Microline** is a micronutrient based liquid formulation with fast and complete absorption intended to prevent and correct deficiencies for optimal development of the plants by means of continuous delivery at the adequate dosage, during the whole crop cycle.

Because its high stability:

- it is indicated for any type of water used in hydroponic cultivation and for any type of soil.
- It is not necessary to acidify the nutrient water tank.
- Does not cause precipitation when mixing with other fertilizers.

## WARNINGS

**USE ONLY IN CASE OF NECESSITY.**

**DO NOT EXCEED THE RECOMMENDED RATE.**

The recommendations and information given in this label have been carefully studied and tested. However, when applying the product, there could be interferences with other factors that are not possible to control such as mixture preparation, application, climate, etc. Lida Plant Research LLC. guarantees the composition, formulation and content. The user is responsible for any damages caused by lack of efficacy, toxicity, residues, etc., by partial and/or total un-observance of the instructions given on the label. Keep out of reach of children. Keep away from food, drinks and cattle feed.

plant nutrition

# microline

## CROPS
