

## Section 2(ee) Recommendation

Date: September 13, 2019

Product: Minecto® Pro  
EPA Reg. No. 100-1592

Use: Control of Beet Armyworm, Corn Earworm, Fall Armyworm, Soybean Looper,  
and Whiteflies in Strawberry

State: California, Florida, Washington

### Directions for Use

- **It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**
- **The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.**
- **The user should have this recommendation in its possession at the time of use.**
- **This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.**

Minecto Pro will control beet armyworm, corn earworm, fall armyworm, soybean looper, and whiteflies on strawberry when applied at 10 fl. oz/A.

- To avoid illegal residues, Minecto Pro **must** be mixed with a non-ionic activator type wetting, spreading and/or penetrating spray adjuvant. Do not use binder or sticker type adjuvants. (See **Section 4.4.5** of the Minecto Pro Section 3 label and see the **Use Restrictions** following the **Strawberry Crop Use Directions** section on the Section 3 label.)

Applications should be timed to the most susceptible insect pest stage at locally determined action thresholds, before populations reach damaging levels.

Apply by ground only. Thorough coverage is essential to obtain the best results. Do not apply diluted product in less than 50 gal/A with conventional ground application equipment. When using electro-static sprayers do not apply diluted product in less than 10 gal/A.
