FIRST AID

Call a poison control center or doctor immediately
for treatment advice. Have the product container
with you when calling a poison control center or
doctor, or going for treatment.

IF SWALLOWED: If victim is conscious, give 2-4
glasses of water to induce vomiting. Do not give
water to an unconscious person. Obtain medical
attention.

IF ON SKIN: Wash with plenty of water. If skin
irritation occurs: get medical advice or attention.

IF INHALED: Remove person to fresh air and keep
comfortable for breathing. Call a POISON CENTER
or doctor if you feel unwell.

IF IN EYES: Rinse cautiously with water for several
minutes. Remove contact lenses, if present and
easy to do. Continue rinsing. If eye irritation
persists: get medical advice or attention.

ENVIRONMENTAL HAZARD

In the case of a spill, contain spill and maximize
recovery.

PRODUCT INFORMATION

Moxon™ Mn is formulated for use as a foliar or soil
application in cropping systems that benefit from
nitrogen, sulfur, manganese and zinc.

NET CONTENTS: 250 gallons (946 liters)
NET WEIGHT: 2627.80 lbs (1191.96 Kg)

MOXON™ MN

Foliar ortho-ortho EDDHA chelated micronutrient.

INSTRUCTIONS

Refer to your state requirements for specific crop recommendations or use in accordance with recommendations of a qualified individual such as a certified crop advisor, university extension representative, trained agronomist or follow guidelines of an approved nutrient management plan.

Foliar Application:

Moxon Mn may be applied as a foliar application to crops at rates ranging from 1 to 4 pints per acre. The use rate of 1 qt/A is the most common use rate for row crops. Moxon Mn can be mixed with many liquid foliar fertilizers and/or pesticides. A jar test should be conducted prior to use with tank-mixes when compatibility is not known.

Soil Application:

Apply 1 to 2 quarts per acre as a starter or broadcast fertilizer in a balanced fertility program.

Guidelines:

Moxon Mn is a low-salt fertilizer that is very safe to the growing crop. However, Moxon Mn should not be used in any situation where crop response from fertilizers is expected or is likely.

STORAGE AND DISPOSAL

Do not reuse empty container. Triple rinse (or equivalent) after mixing and loading product. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC)

operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycling.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state, and federal laws and regulations.

WARRANTY

Conditions of Sale and Warranty Limitation:

The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of CHS Inc. or the seller. All such risks shall be assumed by the buyer. CHS Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. CHS Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall CHS Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. CHS Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CHS Inc.
