APPLICATIONS

Mystic Lake Black is a highly concentrated blend of colorants in an easy to use liquid formula. Mystic Lake Black when added to lakes, ponds, or water hazards, conveniently transforms pale, dirty, or off-color water into a natural appearing healthy black.

Mystic Lake Black may be used to color ornamental lakes, ponds, fountains, water hazards, and other contained bodies of water. Mystic Lake Black should not be applied to streams, rivers, out flows, or water not completely controlled by the user.

Mystic Lake Black may be applied to areas used for irrigation, but not for direct human consumption. Swimming and other recreation sports are approved during and following use of this product. However, wait until product has uniformly dispersed before participating in approved activities. Fish, waterfowl, and animals are not harmed by normal use of this product.

DIRECTIONS

(Note: one acre foot equals a volume covering one acre, or 43,560 square feet, one foot deep or approximately 208 ft x 208 ft x 1 ft.)
