

MYSTIC[®] LAKE BLUE

KEEP OUT OF REACH OF CHILDREN

CAUTION/PRECAUTION

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

PRECAUTIONARY STATEMENTS

May cause eye irritation. Avoid contact with skin and eyes. If contact occurs, wash thoroughly with clean water. Product can stain skin, clothes and other items if contact is made. Test a small area prior to application if staining is a concern.

FIRST AID

IF IN EYES: Rinse eyes with plenty of running water for 15 minutes. Get medical attention if irritation persists.

IF ON SKIN: Wash with soap and water. Remove contaminated clothing and shoes. Get medical attention if irritation persists. Some dyes may temporarily stain skin.

STORAGE AND DISPOSAL

Store in a cool, dry area above 40 degrees F. Product should not be allowed to freeze.

GENERAL INFORMATION

Mystic Lake Blue is a highly concentrated blend of colorants in an easy to use liquid formula. Mystic Lake Blue when added to lakes, ponds, or water hazards, conveniently transforms pale, dirty, or off-color water into a natural appearing healthy blue.

Mystic Lake Blue may be used to color ornamental lakes, ponds, fountains, water hazards, and other contained bodies of water. Mystic Lake Blue should not be applied to streams, rivers, out flows, or water not completely controlled by the user.

Mystic Lake Blue may be applied to areas used for irrigation, but not for direct human consumption. Swimming and other recreation sports are approved during and following use of this product. However, wait until product has uniformly dispersed before participating in approved activities. Fish, waterfowl, and animals are not harmed by normal use of this product.

DIRECTIONS

Use 4 – 16 fl oz of product for each acre foot of water to be treated. (Note: one acre foot equals a volume covering one acre, or 43,560 square feet, one foot deep or approximately 208 ft x 208 ft x 1 ft.) Use lower rates for lighter color and higher rates for darker color. After determining the proper use rate, simply pour the appropriate amount of product into the body of water.

User may want to evenly space the addition of product in the treated area to ensure quicker, more even coverage. Wear rubber gloves when applying Mystic Lake Blue to prevent staining of hands.

SPECIAL INSTRUCTIONS

Store in a cool, dry area above 40°F. Product should not be allowed to freeze. Avoid contact with skin and eyes. If contact occurs, wash thoroughly with clean water. Product can stain skin, clothes and other items it comes into contact with. Test a small area prior to application if staining is a concern.
