DIRECTIONS:
JUGS FOR READY-TO-USE SPRAYER

- Apply every 7-14 days throughout the season
1. Attach sprayer to water hose, with sprayer setting OFF
 2. Turn on water, then press down safety tab
 3. Set sprayer to ON

Spray leaves and apply to the soil of each plant. This bottle provides 60-90 minutes of feeding time, depending on your water pressure. It covers 5,000 to 15,000 sq. ft., depending on how heavily you water.

DIRECTIONS: WITHOUT SPRAYER

Mix 1 (one) tablespoon of Nature's Source to 1 (one) gallon of water. Feed every 7-14 days. Always make a fresh solution each time you feed. Contains 64 tablespoons.

Nutrition From Seeds Enhances The Beauty of Your Garden - No Mixing - Just Add Water
