

# NEWTONE®

## Surfactant & N Basic Blend

### INGREDIENTS:

Proprietary surfactant blend and ammoniated salts .....	80%
Constituents ineffective as spray adjuvants.....	20%
Total.....	100%

### KEEP OUT OF REACH OF CHILDREN

### DANGER

Causes severe skin burns and eye damage/irritation. Combustible liquid.

### PRECAUTIONARY STATEMENTS

Do not breathe mist or spray. Wash hands thoroughly after use. Wear protective gloves, protective clothing, eye protection, and face protection. See Safety Data Sheet for additional information. Keep away from flames and hot surfaces. - No smoking. Store in a well-ventilated place. Keep cool. Store locked up. Dispose of contents/container in accordance with Federal, state and local regulations. Keep product in original container. Triple rinse (or equivalent) the container. Then offer for recycling or reconditioning or puncture and dispose of in accordance with local state and/or federal regulations.

**IN CASE OF FIRE:** Use foam, carbon dioxide, water spray or fog or dry chemical to extinguish.

### FIRST AID

**IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting.

**IF ON SKIN (OR HAIR):** Take off immediately all contaminated clothing. Rinse skin with water/shower.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Immediately call a poison control center or doctor for treatment advice.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

For Emergency, Spill, Leak, Fire, Exposure, or Accident, Call: CHEMTREC 1-800-424-9300

### GENERAL INFORMATION

Newtone is a multicomponent surfactant/buffer/salt spray adjuvant system developed to optimize retention and absorption of many herbicides. Do not use with Assert®.

### GENERAL USE RATES

The addition of nitrogen based fertilizers (such as 28% N, 34% N, or 10-34-0) or ammonium sulfate are generally not required with Newtone. Follow herbicide label directions.

- Use Newtone at 1% v/v (1 gal per 100 gal spray mixture).
  - For water volumes below 5 gpa use 2% v/v (2 gal per 100 gal spray mixture).
- Do not add to a level which would exceed 5% of the finished spray volume.

Add Newtone last to spray mixture and continue agitation or follow specific tank filling and mixing information provided on the herbicide label. Refer to the herbicide label for additional recommendations or precautions.
