

GENERAL INFORMATION

NUTRICHEM CALCIUM is a concentrated readily available source of calcium for use as a preventative against calcium deficiency induced disorders. **NUTRICHEM CALCIUM** applied at the rate of 4 to 6 quarts per acre may enhance the uptake of plant growth regulators. **NUTRICHEM CALCIUM** is intended as a supplement to a well balanced fertility program.

APPLES: Bitter-pit in apples is a physiological disorder associated with low fruit calcium levels. High tree vigor resulting from cultural practices such as severe pruning, excess nitrogen applications and light crop loads can result in low calcium levels in the fruit and a high incidence of bitter-pit.

PEARS: Cork spot and alfalfa greening of pears is a physiological disorder associated with low fruit calcium levels. High tree vigor resulting from cultural practices such as severe pruning, excess nitrogen applications and light crop loads can result in low fruit calcium levels and an increase in cork spot and alfalfa greening fruit disorders.

DIRECTIONS FOR USE

APPLES: Starting at pink apply 2 to 6 quarts of **NUTRICHEM CALCIUM** per acre. Repeat as necessary throughout the growing season.

PEARS: Apply 2 to 6 quarts of **NUTRICHEM CALCIUM** per acre. Repeat as necessary throughout the growing season.

CHERRIES AND OTHER STONE FRUITS: Apply 2 to 6 quarts of **NUTRICHEM CALCIUM** per acre. Repeat as necessary throughout growing season.

HOPS: Apply 2 to 6 quarts of **NUTRICHEM CALCIUM** per acre. Repeat as necessary throughout growing season.

VEGETABLE CROPS: Apply 1 to 2 pints of **NUTRICHEM CALCIUM** per acre as recommended by a certified crop consultant.

GRAPES: Apply 1 to 2 quarts of **NUTRICHEM CALCIUM** per acre at veraison stage of development for water berry.

FORAGE CROPS: Apply 1 to 2 pints of **NUTRICHEM CALCIUM** per acre as recommended by a certified crop consultant.

CAUTION

**KEEP OUT OF REACH OF CHILDREN
HARMFUL IF SWALLOWED
MAY CAUSE SKIN AND EYE BURNS**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

FIRST AID

In case of eye contact, promptly flush eyes with plenty of water for at least 15 minutes. Call a physician. In case of skin contact, flush skin with plenty of water. If swallowed, induce vomiting immediately by giving large quantities of water or milk and sticking finger down the throat. Obtain medical attention.

NOTE: Do not induce vomiting or give anything by mouth to an unconscious person.

USAGE PRECAUTIONS

Use sufficient volume for thorough coverage. Do not spray trees under heat or moisture stress. Use lower rates with concentrate applications and under conditions of low humidity and when temperatures are expected to be higher than 85°F.

Compatibility: **NUTRICHEM CALCIUM** is compatible with most pesticides, insecticides, fungicides and plant growth regulators and can be used in existing spray programs. When using a chemical mixture that has not been used before with **NUTRICHEM CALCIUM** check compatibility by doing a jar test.

Note: Before using a surfactant with **NUTRICHEM CALCIUM** on any agricultural crop consult a certified crop consultant.

Note: **NUTRICHEM CALCIUM** can be used as a buffer. Do not mix other buffering agents that are sulfate or phosphate based acidifying agents.
